ALWAR: Hon. Col. His Highness Shri Sewai Maharaj Sir Tej Singhji Bahadur, K.C.S.I., Maharaja of Alwar State, Rajputana.

Born: 19th March 1911 at Srichandpura in Alwar.

Educated: Privately.

Married: the daughter of Maharaj Akhey Singhji of Raoti in Jodhpur, a member of the Ruling family of Jodhpur. Has two sons and two daughters. Maharaj Kumar Pratap Singhji, the *Heir-apparent*, and Maharaj Kumar Yashwant Singhji, *born* on the 17th June 1938 and 12th Sept. 1939, respectively.

Succeeded to the gadi: 22nd July 1937.

Family History: The Ruling family of Alwar belongs to the Naruka clan of Kushwaha Rajputs who claim descent from Kush, the eldest son of Shri Ramchandra, the hero of Ramayan. The State was founded in 1775 A.D. by Maharao Raja Shri Pratap Singhji, a descendant of Raja Udai Karanji, Ruler of Jaipur, in the 14th century. The then Moghul Emperor, Shah Alam, conferred upon him the title of "Rao Raja" and "Panch Hazari Mansab" (Leader of five thousand) and presented him with the much coveted emblem of "Mahi-Muratab" (the Fish). Maharao Raja Shri Sewai Bakhtawar Singhji (1791-1815), the Second Ruler, who rendered valuable aid to Lord Lake at Laswari during the latter's campaign against the Mahrattas, was the first Prince in India to enter into a Treaty of "Offensive and Defensive Alliance" with the British Government in 1803 A.D. and received the Sanads of "Sewai" and "Bahadur". Maharao Raja Shri Sewai Viney Singhji (1815-1857) rendered help to the British Government during the Mutiny of 1857. Maharao Raja Shri Sewai Sheodan Singhji Bahadur (1857-1874), the fourth Ruler was granted a permanent salute of 15 guns.

In 1889 the title of "Maharaja" was conferred upon Lt.-Col. Maharaja Shri Sewai Sir Mangal Singhji Bahadur, G.C.I.E., as a hereditary distinction and his son, Col. H. H. Bharat Dharma Prabhakar, Raj Rishi, Shri Sewai, Maharaj Sir Jey Singhji Bahadur, G.C.S.I., G.C.I.E. (1882-1937), a great orator and scholar, represented the Indian Princes at the Imperial Conference held in London in 1923 and was a prominent figure and speaker in the Chamber of Princes and at the First R.T.C. During his rule, the permanent local salute of the Ruler of Alwar was raised to 17 guns in 1921 and a personal salute of 17 guns was also granted to him.

War Services: The State has, on different occasions, placed its forces at the disposal of the British Govt. When the World War II broke out, His Highness placed the resources of his State and the State Forces at the disposal of His Majesty and supplied a full Infantry Bn.

(The Alwar Jey Paltan 1200 strong), with reinforcements, for service overseas. It has rendered valuable services in Eritrea, Abbysinia, Egypt, Palestine, Syria, Cyprus, Aegean Sea Is., and Dodecanese Is. A labour Corps of 150 was despatched to Assam to work on the Burma Road. All necessary facilities were provided for several Indian Army Units located from time to time in the State territories for the purposes of training.

The State also supplied more than 14,000 recruits to the Indian Army and stood first in recruitment in Rajputana. The activities of the State Sailors, Soldiers, and Airmen's Board were considerably increased. There is a Central Board and 10 Local Committees, one in each Tehsil of the State, to look after the interests of the Ex-servicemen and their dependants.

To intensify its war effort for the successful prosecution of the war, the Alwar State established a Central War Purposes Committee with various Sub-Committees in July 1940. With His Highness as President, the Committee collected Rs. 6,43,491 for the Alwar State War Purposes Fund. The State invested Rs. 60,00,000 in various Defence Bonds and Certificates, National Defence Certificates for more than Rs. 12 Lakhs have been purchased.

The State presented two Fighter planes, named Alwar I and Alwar II, to His Majesty's Air Force at a cost of Rs. 1,40,000. Other contributions: Rs. 15,000 to the Lord Mayor of London's Air Relief Fund, 10,000 to St. Dunstan's Fund for those blinded in the War, donations to King George's Sailors Fund and the Greek Relief Fund, Rs.40,000 for disabled Indian Soldiers, Rs. 30,000 for relief of the dependants of those killed in action, Rs. 30,000 for Indian Forces Medical Ambulance Fund and Rs. 67,620 for the Indian Red Cross.

The State also maintains two Polish refugee children.

A large number of knitted garments and comforts and materials stitched for the Red Cross, and several hundred tolas of silver trinkets were sent by the Women's Aid Association. Similarly a substantial contribution of equipment such as Binoculars, Telescopes and Compasses was made by the State.

The State also successfully carried on war propaganda. A.R.P. Services were organised and trained and the "Grow More Food Campaign" and National War Front activities proved very useful.

The State has established its own Resettlement and Re-employment office to help ex-servicemen. Several schemes are under the examination of the Govt. Departments. A 'Soldiers' Home' is under construction in the capital of the State.

State Administration: His Highness is assisted in the administration of the State by an Executive Council. The High Court is the highest Judicial tribunal in the State.

Education: The State has 230 schools for boys and 21 Schools for girls, out of which there are 5 High Schools for boys and one High School for girls. The Raj Rishi College, which imparts education in Intermediate Arts, Science and Commerce, has been raised to the degree standard in Arts and Commerce. The State has one Sanskrit College at Alwar with Pathshalas in the districts. A nursery school run on the Montessorie method has been established at Alwar and there are separate schools for Harijans, who can go for higher education in any of the schools of the State. Primary education is free all over the

(Alwar—Contd.)

State. The State has made a strong drive for adult education and an eminent scholar, journalist and educationist has been appointed on the newly created post of Educational Adviser and Rural Reconstruction Officer.

Medical Service : There are three large and thoroughly well-equipped hospitals, one for men, one for women and one for the military and police, at Alwar proper with 22 dispensaries and sub-dispensaries in the districts and mofussil. There is a veterinary hospital at Alwar with a net-work of 14 dispensaries all over the State.

Municipality : Municipal Committees with elected majority except in Kherli Gunj, have been established. They elect their own President and Vice-President.

The B.B. & C.I. Ry. traverses the State north and south, dividing it into two more or less equal parts. Alwar, the Capital, is on the main metre guage line of B.B. & C.I. Ry. from Delhi to Bombay. A network of 177 miles of metalled and 325 miles of non-metalled roads is maintained by the State.

On the recommendation of the Post War Reconstruction and Planning Committee, His Highness' Government have sanctioned several schemes for the improvement of Agriculture, Rural-Uplift, construction of metalled roads, better housing accommodation, opening of new dispensaries, afforestation, development of mines and general educational advancement. Development of Co-operative Societies and Cottage Industries have also received the attention of the Committee. A project for joining Alwar with Bharatpur on the east and Kund on the west by rail, is well under way. It is hoped that the Railway Development plans would soon materialise and contribute to the general prosperity of the State.

His Highness takes a keen personal interest in the administration of the State and in the well being of his subjects, for whose happiness and prosperity he has been making untiring efforts.

Wazir Ud-Dowla Rai Bahadur Sir Seraymal Bapna, Kt., C.I.E., the present Prime Minister of Alwar.

AUNDH, SHRIMANT BHAVANRAO SHRINIWASRAO ALIAS BALASAHEB PANT PRATINIDHI, B.A. (Bom.). Ruler of Aundh State.

Born : in 1869 and is a descendant of Parashuram Trimbak, the founder of Aundh State. *Married :* S. S. Ramabaisaheb of the Rode family of Poona. Has six *s.* and six *d.* He is a treaty Ruler. Is a Deshastha Yajurvedi Brahmin. The hereditary title of Raja was conferred on him in 1936. He is entitled to be received by H.E. the Crown Representative. His eldest son is Shrimant Parashuramrao alias Appasaheb, B.A. (Oxon), Bar-at-Law. *Heir-Apparent :* Shrimant Bhagwantrao alias Bapusaheb. *Born :* 1919. *Area :* Over 501 sq. miles. *Annual Revenue :* Rs. 7,00,000.

Since the introduction in 1924 of a Legislative Council with a majority of elected representatives of the people, the state has passed through a series of constitutional reforms. In 1934 the judiciary was separated from the executive.

In 1938, on the occasion of his 70th birthday, Shrimant Rajasaheb declared his intention to give full responsible government to his people. The new constitution was introduced into the State by Mr. B. G. Kher, the then and present Premier of Bombay. It is a unique experiment in decentralised democracy, which has created in each village a "council of five" *i.e.* Panchayat for village administration as well as for dispensation of justice. On the executive side the Panchayat is subordinate to the Ministry which consists of elected representatives of the people and is responsible to the legislature in all matters of administration. Elections are conducted on adult suffrage. The legislature consists of elected members ten of whom are indirectly elected through the Panchayats and five by direct election by the voters. It is the supreme body having full control over State revenues, and complete authority to pass any resolution or bill and ask any questions. Under the constitution half the state revenue is spent by the Panchayats for village needs, *e.g.*, schools, sanitations, roads, etc. The Prime Minister is appointed by the Raja Saheb from the elected members of the legislature. He in turn selects his Ministers. A Joint High Court of Judicature for Kolhapur and eight other Deccan States has been established which is the Highest Judicial Tribunal for the State.

Primary education is free and compulsory in each village. Aundh has the famous Kirloskar Iron Works; Ogale Glass and Lantern Works; a Soap Factory at Ogalewadi; a Sugar Factory in Gundal and several new factories started recently at Bhawanipur. The idea is to start a net work of small and varied industries throughout the State to solve the problem of unemployment.

BENARES: H. H. MAHARAJA VIBHUTI NARAIN SINGH BAHADUR (minor), the present Ruler of Benares.

Born: on 5th November, 1927.
Succeeded: April 5, 1939.

H. H. the Maharaja being a minor, the administration of the State is carried on by a Council of Administration.

The State of Benares under its Hindu Rulers existed from time immemorial and finds mention in Hindu and Buddhist literature. In the 12th century it was conquered by Sahab-ud-din Ghori and formed a separate province of the Mohammadan Empire. In the 18th century, Raja Mansaram, an enterprising Zemindar of Gangapur, obtained a Sanad from the Emperor Mohammad Shah of Delhi in the name of his son Raja Balwant Singh in 1738 and founded the Benares State, which comprised the four Sirkars of Benares, Ghazipur, Jaunpur and Chunar. Raja Mansaram died in 1740 and his son Balwant Singh became the virtual ruler. During the next 30 years attempts were made by Safadar Jung and after him by Shuja-ud-daula of Oudh to destroy the independence of the Raja, but the latter withstood them successfully, strengthened his position and built the fort of Ramnagar on the bank of the Ganges. Raja Balwant Singh died in 1770 and was succeeded by his son Chet Singh. He was expelled by Warren Hastings and Balwant Singh's daughter's son Mahip Narain Singh was placed on the *Gadi*. The latter proved an imbecile and there was mal-administration, which led to an agreement in 1794 by which the lands held by the Raja in his own right were separated from the rest of the province. The direct control of the latter province was assumed by the British Government under an arrangement by which the surplus revenue was granted to the Raja while the former constituted the Domains. On the 1st of April, 1911, the major portion of these Domains became a State. The town of Ramnagar and its neighbouring villages were ceded by the British Government to the Maharaja in 1918 and became part of the State. The State now consists of three districts, *viz.*, Bhadohi, Chakia and Ramnagar. The Council of Administration, Benares State, have invested Rs. 61,94,800 in war loans; contributed nearly Rs. 99,372 to H.E. the Viceroy's War Purposes Fund, Rs. 7,401 to the Lady Linlithgow's Red Cross Fund and Rs. 7,318 to Red Cross Week Fund, U.P. The officials of the State also contributed to His Excellency's War Purposes Fund.

BHADARWA : SHRIMANT (NAMDAR) THAKORE SAHEB SHREE NATVERSINJI RANAJITSINHJI, Ruler of Bhadarwa (Rewa Kantha).

Born : 19th November 1903. *Succeeded :* 26th April, 1935; invested with powers on 7th Oct. 1935. *Educ.:* At Rajkumar College, Rajkot. *Area :* 27 sq. miles, excluding several Wantas in the Baroda State. *Population :* 13,520, excluding Wanta population. *Revenue :* Rs. 2,20,000. *Married :* 1930, Shree Jijirajkuverbasaheb of Rajpur (Kathiawar). *Heir :* Maharaja Kumar Shree Samarvijaysinhji, born on 21st October 1942.

The State enjoys full Civil powers, and in Criminal matters up to 7 years' R. I. and fine up to Rs. 10,000. The Ruler is a Representative Member in the Chamber of Princes. He is entitled to be received by the Governor of Bombay. Survey settlement has been introduced and permanent tenancy rights were granted in 1918. The Deccan Agriculturists' Relief Act, the Child Marriage Restraint Act and such other reforms are enforced in the State. Medical relief and education are free. The State has made good progress in education and has provided schools for every village having a population of more than 250. The State Police Force is thoroughly organised. The Judiciary and Executive are separate in the State. The Capital Town is supplied with electricity and pipe water. The Municipality has a majority of elected members. Village Panchayats were introduced in every district on the auspicious occasion of the birth of the Yuveraj Saheb.

War Services : During the last great War the State provided a number of recruits and contributed liberally to the various war funds. The State has always been loyal to the benign British Government, and the present Rana Saheb has steadfastly adhered to his family tradition. The Rana Saheb placed all the resources of the State at the disposal of the Crown on the outbreak of World War, II, and contributed liberally to H. E. Lady Linlithgow's Silver Trinket Fund, The Indian Red Cross Society, The Association for Moral and Social Hygiene in India, The China Day Funds, and The Gujarat Agency Warplane Fund, and also sanctioned a monthly contribution, towards the War Purposes Fund, till the successful termination of the War. He was a Patron of the Grand Fete, organised by the Gujerat Agency and Baroda Cantonment, for the War Purposes Fund.

The State is of great historical interest in as much as it comprises territory on which the first battles were fought for Maratha independence. Forts of historical repute, such as Torna, Rajgad, and others, lie in the State. It has also some very important caves of the Buddhist period.

The hereditary title of Raja was conferred on the Ruler in June 1935. He was made a permanent member of the Chamber of Princes in 1940 and a K.C.I.E., in January 1941. He has been elected as a member of the Standing Committee of the Chamber of Princes this year. The Ruler enjoys full internal powers.

An Executive Council introduced in 1924 was reorganised in 1946 with a non-official President. A Legislative Council was established in 1928. Elections to the new Legislative Council have taken place. It will consist of 20 members—19 elected, 5 nominated non-officials and 2 nominated officials. Both the President and Vice-President will be elected. Two Ministers will be appointed from among the elected members. The Privy Purse is moderately fixed. The whole budget is made votable with a few exceptions in 1946. Bhor has joined the Joint High Court established at Kolhapur this year.

Primary education is free, freeships and scholarships are maintained for higher education. The S. S. Gangutaisaheb Pant Sachiv Wachanalaya, a library named after the Raja Saheb's first wife, and the Raja Raghunathrao High School, named after His Highness were built in 1928 and 1937 respectively.

Local Self-Government Institutions like the Bhor Municipality, the five Taluka Boards and the Notified Area Committees of Shirwal and Pali have an elected majority, the President of Bhor Municipality being an elected non-official. The State rendered valuable aid to Government in the construction of the Lloyd Dam at Bhatghar and supported the War efforts as much as it could.

The Raja Saheb is President of the Poona Boy Scouts' Association, the Maharashtriya Mandal, Poona and Maharashtra Education Society, Poona.

BHOPAL: COL. AIR VICE-MARSHAL HIS HIGHNESS THE NAWAB SIKANDER SAULAT IFTIKHAR-UL-MULK MUHAMMAD HAMIDULLA KHAN, BAHADUR, G.C.S.I., G.C.I.E., C.V.O., B.A., LL.D., the present Ruler of Bhopal, succeeded his mother, Her late Highness Nawab Sultan Jehan Begum, in May, 1926, when, weighed down by age and cares of State, she abdicated in his favour. Prior to his accession, His Highness had actively participated in the administration for nearly ten years as Chief Secretary and afterwards as Member for Finance and Law and Justice. He was also the Chancellor of the Chamber of Princes during 1931-32, and attended the various sessions of the Round Table Conference in London to advise and participate in the deliberations of that body and its committees on the subject of political reforms for India. This year again, he has been elected Chancellor of the Chamber of Princes.

An all-round sportsman *au fait* with every game, Eastern or Western, it is particularly in polo that His Highness is best known as one of the greatest players of the generation and enjoys international fame. No less conspicuous are his achievements in administration which functions directly under his personal and active supervision.

The administration is assisted by a Legislative Council, which represents traders, cultivators, Jagirdars, and general urban interests elected through joint or mixed popular constituencies. Parallel with it, a Patels' Assembly representing a federation of rural communes stands for the great body of cultivators throughout the dominion. The Judiciary is independent of the executive, the Government itself being subject to the laws it makes. With a view to bringing the people of the State into closer association with the administration, His Highness, in a birthday Firman last January, announced the following important constitutional reforms in his State. The franchise is to be suitably extended and an elected majority provided in the Legislature. Fresh elections are to be held as soon as the necessary electoral rolls have been compiled according to the extended franchise. Consultative committees of elected members of the new legislative council will be set up to advise government departments in matters of administration. Further, the selection of candidates for appointment to government services is to be entrusted to a Public Service Commission.

Bhopal is notable as the principal Muslim State of Malwa and in India, second only to the State of Hyderabad. It is rich in deposits of iron, bauxite, mica, and other valuable minerals and is rapidly

growing industrially. A number of manufacturing concerns like the Bhopal Textile Mills, the Straw-board Factory, the Sehore Sugar Factory, the Narbada Valley Refrigerated Products Co., the Central India Chemicals Ltd., the Hamidia Match Factory, a tent factory, an oil mill, a glue factory, besides several ginning and pressing factories, form the keystone of the new industrial order in Bhopal.

In the World War II as in the last Great War, the response of Bhopal had been most enthusiastic. Apart from contributions in the form of gifts, investments exceeding a million and a quarter and subscriptions for the purposes of a wide war effort, His Highness' gift of American securities amounting to over £70,000 was accepted by His Majesty for the formation of a Bhopal Squadron of fighters and the expenditure on the Army, already the largest single item in the State budget, has now been more than trebled and accounts for no less than 40 per cent. of the total revenues of the State. The 20th (Bhopal) Field Ambulance, a hospital unit equipped on up-to-date lines, and the Sultania Infantry were serving in the field. The latter was replaced by another unit, while a complete Mechanical Transport Unit which received its first training in Bhopal was on active service. The latest additions to the State Forces are the Bhopal Army Service Corps and a Labour Battalion. Other contribution included important supplies of timber from State forests.

In March, 1941, His Highness visited the Middle East front where he inspected the British and Indian Forces in the field, and was present at the famous assault which ended in the subjugation of Keran in Eritrea. He also paid a visit to Ceylon and the North-West Frontier Province where he inspected the defence arrangements and performed the opening ceremony of the Khyber Cunningham Educational Hall.

In addition to two convalescent homes in Bhopal and Mussoorie equipped at considerable cost, most of the important buildings in the State have been converted to military use. A comprehensive scheme of internal security embracing the organisation of a volunteer reserve for police work and the formation of a new battalion which replaces the Sultania Infantry is designed to relieve the British Military Command of the obligation to maintain the internal tranquillity of the State. An aerodrome somewhere in the State laid three years ago has experienced further expansion to serve as an important link in aerial communications. Every possible expedient was tried to make the State's contribution adequate for a total war effort. Several non-official committees including women's organisations were in charge of soldiers' welfare work whose family needs were given special attention. A Red Crescent Society under Her Highness the Begum-Consort provided amenities for troops abroad. The Command Staff of the Bhopal State Forces has been re-organised and arrangements are under way to mechanise a portion of the army. Auxiliary nurses for the Government of India are being trained at the Prince of Wales' Hospital, Bhopal.

A new department under the direct supervision of the Ruler has taken over charge of Civil Defence; accommodation on a vast scale is made for hospitals for which school and other buildings have been

(Bhopal—*contd.*)

requisitioned; regular classes are held at several centres in the city to initiate the people in defence services of which the A.R.P. and First Aid sections are already highly advanced. Bhopal was the first to organise its National War Front. After a preliminary organisation in the city, the ramifications of the movement have been steadily interknitted into a scheme of wide rural publicity. The youth in rural areas has been organised into village guards formations. The strength of the forces hitherto mobilised exceeds 100,000, roughly about 13 per cent of the total population of the State.

Specially notable has been the success of the State's effort to tide over the present scarcity in food-stuffs. The State has not only exported large supplies of grains, especially wheat, to areas hard hit by scarcity, but has also maintained civilian supplies all over the State at cheap rates.

Salute: 19 guns. (21 guns within the State). *Area:* 7,000 sq. miles. *Population:* About 800,000.

BIKANER: Hon. Lieut.-General His Highness Maharajadhiraja Raj Rajeshwar Narendra Shiromani Maharaja Sri Sadul Singhji Bahadur, G.C.I.E., C.V.O., is the 22nd Ruler of Bikaner since its foundation by Rao Bikaji in 1465. His father, His late Highness Maharaja Sri Ganga Singhji Bahadur, G.C.S.I., G.C.I.E., G.C.V.O., G.B.E., K.C.B., A.-D.-C., LL.D., reigned from 1887 to 1943 and the services rendered by him to the British Crown form one of the brightest chapters in the history of British connection with India.

Born on the 7th Sept. 1902.
Ascended the Throne on the 2nd February 1943.

Salute: Permanent 17 and Local 19.

His Highness worked as Chief Minister from 1920-25. He was attached to H. R. H. the Prince of Wales' Staff during the latter's tour in India in 1921-22. He attended the Coronation Darbar at Delhi in 1911 when he was appointed a Page to H. I. M. the King-Emperor George V and has visited Europe several times. He accompanied his father to Europe when he attended the Peace Conference and the Meetings of the Assembly of the League of Nations in 1924.

On the very day of his return from Europe in Sept. 1938, in view of the then critical international situation as a result of the Czechoslovakian crisis, and again on the outbreak of the present World War in Sept. 1939, His Highness, as the Heir-Apparent, placed his sword and personal services at the disposal of H. I. M. the King Emperor.

His Highness the Maharaja, following in the footsteps of his illustrious Father (with whom His Highness' elder son, the Maharaj Kumar accompanied to the Middle East), proceeded on Active Service to the Middle East Theatre of War in November 1943, with his second son, Captain Maharaj Kumar Sri Amar Singhji Bahadur. In November 1944, His Highness proceeded to the Assam Burma Front to inspect the Bikaner Bijey Battery, which had taken a conspicuous part in the fight against the Japs in the Arakan and Manipur and Assam.

State Administration: The Bikaner State ranks among the foremost progressive States of India and the narration of the following facts should be sufficient to establish the enlightened and moderate nature of its Administration.

Judiciary: (*a*) Bikaner was the first State in Northern India to establish a Chief Court in 1910. (*b*) It was also the first State to raise the Chief Court to the status of a High Court in 1922 and to make the Judiciary completely independent of the Executive.

Elective Institutions: (*a*) It was the first State in Rajputana (and the only one till a year ago) to establish in 1913 a Legislative

Assembly with powers of interpellation, discussion of Budget, etc. Further reforms of far-reaching and fundamental importance were recently introduced enlarging the elected element and conferring much wider powers such as voting grants, putting supplementary questions, moving adjournments to discuss matters of urgent public importance, etc. The reforms inter alia include the appointment of a Dy. President and three Under-Secretaries from amongst non-official members. (*b*) Local Self-Govt. is firmly established in the State, every Nizamat having a District Board and practically every town with a population of over 5,000 and some even with less, a Municipality. All Municipalities outside the Capital have elected Presidents. Over 120 Panchayats and 50 Co-operative Societies have been started all over the State.

Education: (*a*) Education is free in the State. Compulsory Primary Education is in force in the Capital as well as in 8 District Municipalities. Besides a College teaching up to M.A. Classes, there are no less than 17 High Schools, 34 Middle and Lower Middle Schools and 172 Primary Schools in the State. A Teachers' Training College has also been established at the Capital. (*b*) Special attention is devoted to girls' education. Besides a girls' Intermediate College and several other girls' schools, there is in the Capital an institution which is unique in at least Rajputana for the education and training of Kumaries of the families of the Rajput Nobles under strict *purdah* arrangements. This institution owes its existence to the interest and initiative of Her late Highness the Dowager Maharaniji Sahib, C.I. (*c*) A Montessori School for children of both sexes has also been established. (*d*) A Public school on modern lines has also been started to impart education according to latest methods of teaching. (*e*) Liberal scholarships are also awarded to State subjects for prosecuting higher studies in technical subjects in India and abroad.

Medical Service: (*a*) The two large and thoroughly well-equipped General Hospitals, one for Men and the other for Women and Children, costing approximately Rs. 16½ lakhs, have deservedly become centres of higher medical treatment for people belonging to other adjoining States and British territory and even distant parts of India. Every branch of medical relief is in charge of specialists—expert and highly skilled Physicians, Surgeons, Oto-laryngologist, Radiologist, Ophthalmic Surgeon, Bacteriologist, Pathologist and Dentist—and there are arrangements for the most up-to-date treatment by blood transfusion, X-Ray, deep-ray therapy, radium, penicillin, etc. There is also a separate well-equipped Tuberculosis Hospital. (*b*) In the Districts also first-class Hospitals exist; and there are no less than 45 Hospitals and Dispensaries in the State. A Maternity and Child Welfare Centre functions in the City. (*c*) The opening of an Ayurvedic College at the Capital has also recently been announced.

Revenue, Gang Canal: (*a*) The main irrigation in the State is through the Gang Canal. It was the cherished dream of His late Highness since 1899-1900, the time of the Great Famine, to secure irrigation for his State, and in 1905-06 the Sutlej Valley Project was mooted for harnessing the waters of the Sutlej which was also to irrigate the northern portion of the State. After protracted negotiations, an agreement was reached in 1920 between the Punjab, Bikaner and Bahawalpur Governments to carry out this Scheme. The Canal now irrigates 7,37,765 acres in the

north-west of the State and was opened on the 26th Oct. 1927 by Lord Irwin. (*b*) The undertaking was one of exceptional difficulty. 79.7 miles of the Main Canal and 10 miles of the feeder in the old Ghaggar bed had to be lined with concrete at a cost of about Rs. 83 lakhs. Railway communications, 157 miles in length, to open up the Canal irrigated area, had to be built involving very heavy additional outlay. (*c*) It is by far the longest concrete lined Canal in the world. The length of the Main Canal from Ferozepore Head Works to Shivpur in the Bikaner State is 84.7 miles while the feeder and the distributaries are 850.8 miles long. The cost of construction of the Canal including the share of the cost of Headworks amounted to over Rs. 3 crores and 60 lakhs. Other expenditure connected with the Canal Colony, like the development of Railways, etc., amounted to about Rs. 30½ lakhs. Much of this total expenditure of about 3 crores and 90 lakhs of rupees was met from State Revenues or loans raised in the State. Lands were sold on conditions previously advertised, which were more advantageous than conditions prevailing in the Punjab. The population of the Colony area has risen from 28,957 in 1921 to 1,43,129 in 1931 and to 2,63,404 in 1941. The production of wheat and sugarcane has during this period increased from 2,935 and 16 Bighas respectively in 1928 to 2,95,702 and 24,458 Bighas respectively in the year 1944-45.

Bhakra Dam : (*a*) The State is participating in the big Bhakra Dam project which would irrigate about 12,05,600 acres in the Northern districts of the State. The State's share of the cost of this project is estimated at about Rs. 8 crores. (*b*) Recently a most far-reaching reform in the revenue administration of the State has been launched for the grant of Occupancy and Proprietary Rights to the cultivators throughout the State with powers of alienation and mortgage.

In the Canal area, full proprietary rights have been given to the colonists and to the old settlers.

Railway : The Bikaner State Railway now extends to 883.05 miles and the capital invested amounts to more than 4¼ crores, including a capital outlay of Rs. 20 lakhs on its own Workshops.

Census : Population : 12,92,938 (1941 census), an increase of 38.1 per cent. over the figure of 9,36,218 recorded in 1931 which in turn was an increase of 41.9 per cent. over the Census of 1921.

Privy Purse and Civil List : (*a*) Bikaner State was one of the first Indian States in which was introduced, as long ago as 1902, the system of having a separate and well-defined Civil List and Privy Purse on modern lines and a clear dividing line between personal expenditure of the Ruler and that of the State. (*b*) The allotment to Privy Purse and Civil List does not exceed 9 per cent. of the ordinary revenues of the State and it has been laid down that in no case the amount drawn for the Civil List and the Privy Purse shall exceed the sum of Rs. 20,00,000 a year.

Nation-building Departments : It is an accepted policy of the State that as far as practicable not less than 10 per cent. of the total revenues be spent every year on the Nation-building Departments. As it is, the expenditure on Beneficent Departments amounts to Rs. 34,95,382. (Budget Estimates for 1946-47).

Water-Supply and Rural Reconstruction.—"The Sadul Water-Supply and Rural Reconstruction Fund" was established for providing drinking water and drainage facilities to the people of the Capital and other towns; and an additional annual provision of Rs. 1 lakh has been sanctioned in the State Budget for the construction of wells, tanks and bunds in rural areas.

Abolition or Reduction in Taxation.—With a view to alleviating the hardships of people, His Highness has been pleased, since his accession to the Throne in February 1943, to abolish the import duty on articles of personal use, in addition to the remission of several traditional and customary levies and the reduction in other taxes and cesses.

In a Proclamation dated the 23rd Oct. 1941 His late Highness had announced that the following 8 principles of good Government would as heretofore be scrupulously adhered to by himself and his successors—

(1) Reign of Law, including certainty of Law; and the recognition of the equality of all the subjects of the State, high or low, before the Law;
(2) Security and Protection of Life and Property and of Rights and Individual Liberty;
(3) Independence of a competent and trained Judiciary and the provision of adequate machinery for the adjustment of disputes between individuals and between individuals and the State;
(4) Financial Credit and Stability;
(5) Efficiency and Continuity of Administration;
(6) Clear demarcation of State expenditure and the personal expenditure of the Ruler and a definite and fixed percentage of the Ordinary Revenues of the State as the Civil List of the Ruler, sufficient to meet his personal expenses and to maintain his position and dignity;
(7) Utilisation of as large a proportion as possible of the resources of the State for the benefit of the people and especially in what are known as Nation-building activities and Beneficent Departments; and
(8) Beneficent Rule in the interests of the general well-being and contentment of the subjects of the State and the increasing association, as circumstances and local conditions permit, of the people with the Government through the Legislative Assembly, Local Boards and other Elective Institutions.

Area: 23,317 sq. miles. In point of area Bikaner is the 6th largest of all the Indian States excluding Kalat and the second largest in Rajputana.

Revenue: Ordinary Rs. 2,29,51,333. Capital and Extraordinary Rs. 53,66,000. Total Rs. 2,83,17,333 (Estimates for 1946-47).

The State has launched a vast Post-war Reconstruction and Development programme and the starting of several industries has been sanctioned.

His Highness married the sister of H.H. Maharaja Sri Gulab Singhji Bahadur of Rewa and has two sons; Maharaj Kumar Sri Karni Singhji Bahadur, the Heir-Apparent, and Maharaj Kumar Sri Amar Singhji Bahadur; and a daughter who is married to Maharaj Kumar Sri Bhagwat Singhji Bahadur, Heir-Apparent of Udaipur State. A son was born to the Heir-Apparent on the 13th Jan. 1946.

BILKHA: DARBAR SHREE RAVATWALA SAHEB, Ruling Chief of Bilkha, scion of the illustrious Vala Kathi Rajput clan and belongs to the Oghad Virani branch of the Jetpur House.

Born: 19th January, 1906. *Educated* at the Rajkumar College, Rajkot. Darbar Shree Ravatwala Saheb, the senior-most member in the family of Darbar Shree Alawala, won the Kanthadwala succession case and ascended the *Gadi* on 19th January, 1928. He holds IV Class Jurisdiction. *Married:* Bai Shree Devkunverba Saheba in February, 1928. She is religious and pious and not observing pardah. *Heir-Apparent:* Prince Jaswant Singhji. The Chief Saheb has three daughters, Rajkumari Shree Nandkunverba, *born* on 28th Dec. 1929, brilliant in studies and the first Rajkumari in the community to appear for the Matriculation examination of the Bombay Univ., in 1945; Kumari Bhanukunverba, *born* on 7th Oct. 1935 and three Kumars, K. S. Kishorsinghji, K. S. Ranjitsinhji and K. S. Harischandrasinhji.

Area: 167 sq. miles. *Population:* 45,000. *Revenue:* 5,87,000.

Administration: The Chief Saheb is keen on the advancement of his State in every respect and on a higher standard of living for his subjects. With this object he made strenuous efforts to consolidate his Giras which were lying scattered under the exchange system and secured complete sovereignty over the towns of Bilkha, Medarda and Chital, which were Majmu till 1935. Bilkha, the capital of the State, is equipped with electricity and possesses good roads. It has a Middle School, a Taluka School and Girls' School and the Chief Saheb is anxious to raise the Middle School to a full fledged High School as early as possible. There is a hospital in Bilkha for medical aid to the people. The Chief spares no efforts to provide his people with amenities of life. Construction of a decent Hospital with beds and every convenience and the development of commerce and industry in Bilkha are engaging his attention.

Revenue: The system of Bhagbatai prevails in the State, but the Chief Saheb has granted proprietory rights to the Kheduts on their holdings. *Sports:* The Chief Saheb is a great lover of sports and Shikar and is keenly interested in cricket, tennis, billiards, golf and volley ball. He won the Kathiawar Gymkhana Tennis Challenge Cup, the Billiards Cup, and the Gibson Volley Ball Challenge Shield in

1940. A good marksman, he has shot nearly 20 lions and 50 panthers in his own limits of the Gir Forest. He is also adept at riding and owns some of the best Kathi horses.

The Chief Saheb visited England on the occasion of the coronation of His Imperial Majesty the King Emperor George VI in 1937, and toured the Continent. He generously contributed to the War Funds and is taking keen interest in post-war reconstruction.

The Chief Saheb exercises jurisdiction over 29 villages, of which Bilkha, Kunkavav, Medarda and Chital are towns of some commercial importance and afford scope for development of commerce and industry.

Transport : The town of Bilkha is connected by the Junagadh State Railway and is a Station on the Junagadh-Visavadar section, while Kunkavav and Chital are stations on the Jetalsar-Dhasa section of the Gondal Railway. Medarda is served by a regular motor service between Medarda and Dushala and Medarda and Junagadh. *Irrigation :* The State has recently built a tank named "Ravatsagar" which irrigates 1,000 acres of land.

PRINCIPAL STATE OFFICER.

Dewan : MAJOR F. F. GILBOY, M.A., T.D., M.R.S.T., I.A.

CHHOTA UDEPUR is situated in the north-east corner of Gujerat, on the boundaries of Central India, and is one of the States forming the Gujerat States Agency.

Its Rulers are Chauhan Rajputs descended from Prithiraj Chauhan, the last Hindu Emperor at Delhi. After the fall of Delhi, the family finally settled down at Champaner, building a large Fort on the hill called Pawagadh. On the rise of Muslim Power in Gujerat, the family moved in to the interior and established a kingdom on the banks of the Nerbudda. The present Ruler is Maharawal Shree Virendrasinhji. He was born on 24th October 1937. The Ruler enjoys plenary powers, has permanent salute of nine guns, is a member of Chamber of Princes in his own right, and he has been granted a Sanad of Adoption.

The late Ruler Maharawal Shree Natwarsinhji recently expired on the 15th October 1946 at Lisbon. The form of Administration during the minority of the present Ruler has not yet been finally decided. The Dewan is carrying on the Administration.

CHITRAL : HIS HIGHNESS HAJI MAHAMMAD MUZAFFAR-UL-MULK, HONORARY COLONEL, CHITRAL STATE SCOUTS, the present ruler of Chitral State.

Born : 16th October 1901.

Nationality : The Chitral dynasty traces their descent to Amir Timur, the Famous Tamerlane, through his grandson Sultan Hussain, the Emperor of Herat.

Mirza Ayab, the grandson of Sultan Hussain, came to Chitral as an exile and married the daughter of the then ruler of Chitral, who proudly styled himself the descendant of Alexander the Great. The issue of the marriage was the founder of the present dynasty.

His Highness was educated in the Islamia College, Peshawar, and was the Governor of Turekho Province before his accession. On 29th July 1943, when his elder brother died without a male issue, His Highness succeeded to the Gadi. His Highness takes a keen interest in the welfare of his subjects and had enjoyed great popularity among them even before he became the Ruler, which was demonstrated at the time of his accession.

The ruling family is staunchly loyal to the British Crown. In war and peace the rulers have given undeniable proof of their devotion. In 1919, in alliance with the British Government forces, the Chitral State Army occupied the Afghan Cantonment at Birkot and captured guns and other war materials.

Chitral State occupies a strategic position on the extreme north-west of India. In the second world war the Ruler had assured the Government of his steadfast loyalty and devotion. The State was contributing Rs. 10,000 annually to the War Purposes Fund, and Rs. 3,000-5,000 to the Red Cross Organization.

Salute : 11 guns.

Area of State : 4,000 sq. miles.

State Forces : Known as the Bodyguard, number 5,000 trained men.

COCHIN: H. H. SRI KERALA VARMA, Maharaja of Cochin State.

Born : July 1870.

Education : B.A.

Ascended the Musnad : 31st January 1946.

Cochin is a maritime State lying in the south-west corner of India. Nearly a third of the State is covered by dense forests containing valuable timber such as teak, ebony, rosewood, etc.

Salute : 17 guns.

Population : 1,422,875 (1941).

Income for the last financial year : Rs. 3,34,51,479.

Expenditure : Rs. 2,92,23,931. Budget estimates for the current year 1946-47 under receipts and expenditure stand at Rs. 322 lakhs and Rs. 354 lakhs respectively.

The Government of the State is carried on by His Highness the Maharaja through the Diwan in relation to 'reserved subjects' and through Ministers responsible to the Legislature, appointed under the Government of Cochin Act, in relation to 'transferred subjects.' A Legislative Council with a predominant non-official majority and elected on a very wide franchise has been constituted.

In point of education the State occupies a front rank among the Indian States and Provinces. There are 735 educational institutions including six First Grade Colleges and a Training College with a total strength of 229,800 students (129,391 boys and 100,409 girls).

The State maintains 15 General Hospitals, 16 Dispensaries, 18 rural dispensaries, one leper asylum, 7 itinerary dispensaries, 8 Ayurvedic Hospitals, 38 Govt. Vaidyasalas, 8 taluk and 48 grant-in-aid Visha Vaidyasalas. Apart from libraries attached to educational institutions and public libraries in Municipal areas and important towns, there are 217 rural libraries. Local administration is carried on by six Municipalities and 87 Panchayats in the villages.

Legislation in the State rests with the Legislative Council, but without prejudice to the rights of the Maharaja to make laws. Cochin is the first Indian State to give to the elected representatives of the people a share in the administration by transferring all departments except Finance, Law and Order to the control of popular ministers responsible to the Legislative Council. At the head of the Judicial administration in the State is the High Court. The State railway runs along the entire length of the State beginning from the Cochin Harbour and connecting the State with British India. The forest areas are tapped by a steam tramway, 50 miles in length.

GONDAL: HIS HIGHNESS SHRI BHOJRAJJI MAHARAJA THAKORE SAHEB of Gondal, is a Jadeja Rajput.

Born: Jan 8, 1883. *Educ.:* at Eton and Balliol Colleges, Oxford. *Married:* Rajkunverba, on 25th Jan. 1905. *Heir:* Yuvraj Shri Vikramsinhji *Succeeded* on March 9, 1944. On Mar 21, 1944, he announced donations worth Rs 60,00,000 for various popular charities.

The early founder of the State Kumbhoji I had a modest estate of 20 villages. Kumbhoji II, widened the territories to their present limit by conquest, but it was left to Maharaja Bhagvatsinghjee to develop its resources to the utmost, and on account of its importance and advanced administration it earned the position of a first-class State. Gondal has always been preeminent amongst the States of its class for the vigour with which public works have been prosecuted and was one of the earliest pioneers of Railway enterprise in Kathiawar. There are no export or import duties, the people being exempt from taxes and dues. Gondal stands first in Kathiawar in respect of education. Female education is compulsory. Rs 50 lacs have been spent on irrigation tanks and canals, water-supply and electricity to the town of Gondal, which is the capital, and to Dhoraji and Upleta. There is telephone communication throughout the State and a network of roads with bridges and roadside avenues.

Certain Talukas were attached to the Gondal State on 10th June 1943 and on 7th Dec. 1943 by the order of H. E. the Viceroy. The population of the attached State is 22,537 and the total area is 150 square miles.

Area: 1,180 sq. miles (1,024 + 156). *Population:* 207,051 (244,514 + 22,537). *Revenue:* Rs 60,00,000. *Salute:* 11 guns

In matters of administration, His Highness is assisted by a Council of Ministers under his direct control.

The State Army consisting of Cavalry, Infantry and Artillery Units is well organised and is considered to be the best among the Indian State Forces. The State maintains its own Postal system and a light Railway.

Educationally, the State is much advanced. There are three Degree Colleges—two at Gwalior, the Capital, including one for women and one at Ujjain; two Intermediate Colleges and High Schools in practically all the districts. There are a few technical schools imparting education in arts and crafts, a public school on the Gwalior Fort which is run on the English Public School lines, and a Montessori School for small children. An up-to-date Medical College—the Gajra Raja Medical College—which is the only one in Central India, has been affiliated to the Agra University and commenced to function from August 1946. Its foundation stone was laid by H. E. Lord Wavell in November last.

The political reforms announced in June 1939 were further supplemented by His Highness's Proclamation of September 1941. The strength of the Praja Sabha, which was formerly 85, has been raised to 90, of which 55 instead of 50 are elected representatives, thus providing for a still greater non-official element in the Lower House. The Praja Sabha (Lower House) and Raj Sabha (Upper House) have identical powers and the range of their functions is co-extensive. Another feature of the recent reforms is that the legislature has the power of discussing the constitution as well. In his inaugural address to the first session of these Sabhas which met in April 1946 and which was a great success, His Highness the Maharaja Scindia, alluding to various problems facing the Government, said: "We have to build a solid structure of our State's peace and prosperity. We have to raise the standard of living by increasing per capita income. We have to bring about with vigour and promptitude an all round social, moral and cultural development. We have to carry medical help, nursing, midwifery, health and sanitation to the very doors of our people. We have to wipe out mass illiteracy and to fight chronic malnutrition and insanitation on an enormous scale."

Since the assumption of ruling powers by the present Maharaja, commendable activity has been witnessed in all branches of administration. The construction of the Harsi Reservoir costing about Rs. 1½ crores, the grant of one crore of rupees for rural reconstruction, the establishment of a Degree College for Women and an up-to-date Medical College as also a scheme for construction of a Female Hospital are some of the important beneficent measures undertaken during the period. The network of roads has been utilized by motor bus services run by the Gwalior and Northern India Transport Company, and those places which were unconnected are now being joined with important highways. At Madhav Sagar, a seaplane base has been constructed which serves as a halting station for the boats plying on the Imperial Air Line.

(Gwalior—*contd.*)

Gwalior maintains an up-to-date Aerodrome also.

Immediately on the outbreak of hostilities, His Highness, in keeping with the traditional policy of the House of Scindias, placed his services, his Army and the entire resources of his State and his people at the disposal of His Majesty the King-Emperor.

Gwalior sent the pick of its Army on active service both in India and abroad and the monetary contribution made by it in the form of gifts, investments and subscriptions reached the enormous figure of Rs. 3,23,53,539-4-6.

The end of war has brought the problem of Post-War Planning to the forefront. The State being predominently agricultural, it is devoting special attention to its post-war schemes of agricultural improvements, betterment of live-stock, development of forestry, expansion of medical relief to villages and diffusion of elementary education in rural areas ; besides such activities as the survey of minerals, metallurgy and industrial resources, construction of roads and buildings, restoration of ex-service personnel to civil life, multiplication of banking facilities, modification of laws, etc communications, labour welfare, industries, Public Health, Education, etc., have also received due attention The blue print prepared by the State consists of 128 schemes grouped in 'Special Priority', 'Particular Area' and 'Whole State' schemes to show at a glance the order they claim for their execution. Dr. Radha Kamal Mukerjee, the reputed Indian economist, who has been appointed as Economic Adviser, has been scrutinising the Draft Plan after which it will be submitted to the Government for necessary sanction for implementation. A handsome provision is earmarked in the State budget for Samvat 2002 for post-war reconstruction and development

The cessation of hostilities on all fronts has brought the question of re-settlement of ex-service men to the forefront. Accordingly, Employment Exchanges have been set up at Gwalior and Ujjain and a Committee has been appointed by the Durbar for implementation of other schemes in this connection. Meanwhile, Pilot Projects and Emergency Schemes have been drawn up to give a start to the work The Emergency Schemes aim at checking the soil erosion in the northern districts of the State which has been the greatest single menace in that division.

The Pilot Projects will inaugurate reconstruction of agriculture by concentrating the activities of all the departments in particular groups of 10 to 15 villages in one district of northern division and another in the southern division. It is hoped that the prosperity brought about by these projects will create a voluntary demand from the public and allow the Government to watch to what extent the fixed

targets are achieved before launching a State-wide programme. The Pilot Projects have since received the sanction of the Government and are being implemented under the aegis of the Revenue Department. Negotiations are also afoot for participation in the Kotah Hydro-Electric Project, which will make about 26000 KW of electric energy available to the State.

The Post-War Reconstruction Department has commenced publishing weekly price index numbers, which are expected to prove helpful both for agricultural as well as industrial purposes.

The State has a Legislative Council of twenty-two members, eight of whom are elected, and an Executive Council of eight members with a President. It maintains its own paper currency and coinage, postal system, railways and army. It has a University with six Arts Colleges including one for Women and Colleges for Engineering, Medicine, Law and Teaching. It has also an Honours College affiliated to Madras University, a College for Jagirdars and a College of Physical Education. There are also a Village Industries Training Centre, a Central Technical College and an Observatory. There is a State Bank with an authorized capital of Rs. 1,50,00,000. The State is of great historical and archæological interest as, within its limits, are situated many capitals of ancient and mediæval Deccan kingdoms, famous forts, temples, mosques and shrines and the wonderful Buddhist sculptures and paintings of Ellora and Ajanta.

Constitutional reforms of a far-reaching character were announced in 1939 based mostly on the recommendations of a predominantly non-official committee. Under the new reforms scheme a much enlarged Legislative Assembly, with an elected majority and a specified list of matters within its purview, is to be established. The basis of representation both for the Assembly and for all local bodies will be functional with joint electorates. The new constitution also provides for the setting up of a number of Advisory Committees on Religious affairs, Finance, Education, Public health, Industrial and Agricultural

development and Hindu and Muslim Endowments, to advise the member of Govt. concerned on these matters; for the reconstruction of the Hyderabad Civil Service Committee, the setting up of Appointment Boards to control recruitment to Government services, the establishment of village Panchayats and the reconstitution and expansion of existing District Boards and District Municipalities and Town Committees. A new Press Act is on the anvil.

In spite of difficult conditions created by the war, progress continued to be made with the scheme of gradual implementation of constitutional reforms in the State. The Statutory Advisory Committees and Panchayats have already been formed and the former have started functioning. Since 1942 District Conferences are being held every year and regulations regarding Town and Municipal Committees, District Boards and Sanitary Powers have been promulgated.

Hyderabad and War: Foremost among the units of Princely India, Hyderabad was in the forefront of all Indian States and even many British Indian provinces in the matter of her practical contribution to the war effort of the country. No sooner had hostilities broken out in Europe than His Exalted Highness the Nizam, the "Faithful Ally" of the British Government, in keeping with the traditional policy of the House of Asaf Jah, offered unstinted co-operation and placed his services and the entire resources of his Dominions at the disposal of the British Government.

His Exalted Highness not only placed his Delhi, Bombay and Calcutta palaces at the disposal of the Government of India for war purposes but also donated Rs 10 lakhs from his privy purse. Govt donations amounted to Rs 52.41 lakhs. This was in addition to the war expenditure, both direct and indirect, of 5.7 crores and a contribution of Rs 50.23 crores in subscription to the Govt of India's Defence Bonds. Following the lead of their august Master the public of Hyderabad contributed over Rs 50 lakhs. Besides these eight units of the Regular Forces were serving on various fronts both in India and abroad.

This does not by any means exhaust the list of measures which were taken by the Government and people of Hyderabad to contribute their quota to the country's war effort. A special organization was created and entrusted with the task of aligning Hyderabad industries with the war effort. All State workshops manufactured war material in large quantities. A centre was established to train technicians required for the Indian Army and Air Force. Hyderabad has also the distinction of having an Elementary Flying Training School. This institution was established at a capital cost of Rs 1.75 lakhs. Besides, the textile industry produced 10.6 million yards of cloth of various kinds, 3.3 lakhs of hospital sheets and large quantities of other material required for war purposes.

The share of the women of Hyderabad in the war effort of the State was considerable. Under the active leadership of Her Highness the Princess of Berar, the President of the Women's War Work Committee,

(Hyderabad—*contd.*)

they provided a large number of articles of comfort for troops on active service. The Xmas and New Year Gifts to troops from Hyderabad were an annual feature.

Capital : Hyderabad—Population 728,400 (1941). It is interesting to note that in the race of cities for places Hyderabad has succeeded in retaining her previous position—that of being the fourth largest city in the Indian Empire. The city is beautifully situated on the banks of the river Musi with fine public buildings, broad cement roads, good electricity and water-supply and an efficient bus service run by the State Railway. Among the more interesting sights for visitors are the Char Minar, and Mecca Masjid, the fort and tombs of Golconda, the large artificial reservoirs—the Osman Sagar and the Himayat Sagar—and the Osmania University.

His Exalted Highness has always evinced a keen interest in the industrial development of his State and any new venture finds a ready response from him. He places the prosperity of his subjects above everything else. He is deeply solicitous of the welfare of the Depressed Classes and through the unremitting labour of his Government many new schemes for promoting their welfare have been enunciated. H.E.H. has kept up the tradition of the House of Asafjah to observe absolute impartiality in matters pertaining to the religion of different communities in the Dominions.

The Honorary Degree of LL.D has been conferred on His Highness by the Osmania and the Aligarh Muslim Universities. The titles of G.B.E. and G.C.I.E. were conferred on His Highness in 1943 and 1946 respectively.

His Highness was appointed Commander-in-Chief of the Hyderabad State Forces in 1934 and has associated himself whole-heartedly with measures designed to enhance the efficiency of the Army. His Highness has done much to reorganise the Regular Forces, Irregular Forces, Paigah Troops, and especially to keep the former abreast of modern lines in arms and equipment and to ensure that their training is maintained at the high standard demanded by present-day war conditions. He visited from time to time the Hyderabad units serving with His Majesty's Forces outside the State. His Highness' broadcast on the subject of the war effort of the Hyderabad Regular Forces commanded wide attention. His speeches command interest both on account of their simple unaffected language and because of the sympathy and understanding he brings to bear on the various problems.

IDAR: H. H. MAHARAJA DHIRAJ SHREE HIMMAT SINGHJI SAHEB BAHADUR OF—The Idar House was founded 200 years ago by two brothers of the Maharaja of Jodhpur. His Highness Maharaja Shree Himmat Singhji is the 10th of this illustrious line.

Born: On 2nd September 1899. Succeeded to the *Gadi*: 14th April, 1931.

Married: Shree Jawahar Kunwar Sahiba, the eldest daughter of Raja of Khandela in the Jaipur State in 1908.

His Highness received his education at Mayo College, Ajmer, where he remained for 5½ years, leaving it after a brilliant career in 1916. He attained his diploma, standing first in the list of candidates from all the Chiefs' Colleges in India and was awarded His Excellency the Viceroy's medal. He won every class prize from the fifth to the diploma, five prizes for English and eleven others for various subjects. He also won prizes in each division in succession for riding, and represented the College against the Aitchison College for 3 years at tent pegging, and also at tennis. For several years he was captain of one or other of the junior football or cricket elevens, and he was one of the best and keenest polo players in the college.

His Highness has upheld his family tradition as a horseman From boyhood he has been keen on hunting and pig-sticking and before he joined College at the age of 10, he had accounted for many a panther and bear with his rifle. His Highness now keeps a racing stable and has had many successes, including the blue ribbon of the Indian Turf—"The Eclipse Stakes of India"—which he won in 193 with his New Zealand bred horse Heritage II These active sports are not his only recreations for he has a good ear for music and is also interested in painting and photography.

On leaving college, His Highness Maharaja Shree Himmat Singhji took an active part in the State administration, being appointed to His late Highness' Council, and later for several years was in charge of the administration under His late Highness' personal direction. He gained further practical experience from an extensive tour throughout India in 1929-30. He was therefore well qualified to take up his responsibilities as Ruler of his State when he ascended the *Gadi* of Idar. Since his accession in 1931, many schemes for improvement have been inaugurated which concern the social welfare of his subjects, their

education, industries and agriculture. His Highness has embarked on an ambitious programme of reform and advancement which, it is expected, his experience and keen personal interest will enable him to carry through successfully.

War Effort : On the outbreak of the War, His Highness placed all the resources of the State at the disposal of the Government and contributed Rs. 25,000 annually to the Viceroy's War Purposes Fund. The State presented its two *Aircraft*—a Monospar and a Hornet Moth—to the Government.

The members of the Ruling Family, together with the Jagirdars and Officials of the State, contributed Rs. 18,123-0-6 (including Rs. 1,509 as annual contributions) towards the War Purposes Fund.

Rs. 904-8-0 were presented on behalf of the ladies of the State towards Her Excellency's Silver Trinket Fund. Besides these, Rs. 54,300 were contributed to the various funds connected with the War activities, including Rs. 4,000 towards Her Excellency Lady Linlithgow's Red Cross Fund. A Central War Committee had been established which made every effort for the collection of Funds. The services of one Platoon of the Idar Sir Pratap Infantry had been placed at the disposal of Government for Military Service during the war.

Dewan : Maharajkumar Shree Daljit Singhji.

His Highness has two sons, Maharaja Kumars Shree Daljit Singhji and Amar Singhji. Maharaja Kumar Shree Daljit Singhji, the Heir-Apparent, was born in 1917, and received education at the Mayo College, Ajmer. On leaving College he obtained experience in the various branches of administration in Nawanagar State. He accompanied His Highness the Maharaja Jam Sahib of Nawanagar to England on the occasion of the Silver Jubilee of His late Majesty King George V, and returned in 1935 after a short tour of the Continent. He was married in 1936 to Shree Vraj Kunvarba Sahiba, sister of His Highness the Maharaja Jam Sahib of Nawanagar. He worked as Special Officer in respect of Units attached to the Idar State as a result of the recent constitutional changes and also as Honorary Pilot Instructor for some time at Bombay and Madras. He is at present working as Dewan of the State.

INDORE: HON. MAJ.-GENERAL HIS HIGHNESS MAHARAJADHIRAJ RAJ RAJESHWAR SAWAI SHREE YESHWANT RAO HOLKAR BAHADUR, G.C.I.E., LL.D., Maharaja of:

On the outbreak of hostilities in Europe, H. H. the Maharaja Holkar placed the entire resources of the State, including the State Army and his personal services, at the disposal of the British Crown. H. H. donated a sum of Rs. 5,00,000 and placed it at the disposal of H. E. the Viceroy, to be utilised towards war purposes in any manner H. E. thought best. Subsequently, H. H. and his Govt., in keeping with the traditions of the illustrious House of Holkar and the close ties that bind it to the British Crown, intensified the State war effort and took various measures with a view to contributing to the utmost degree towards the effective prosecution of the War.

The Holkar Transport Corps was deputed to Jhansi for undergoing training early in 1940. In July 1940, under special orders of H. H. the whole of the 1st Battalion was placed at the disposal of the Crown and steps were taken to bring up all units of the Holkar State Forces to full strength. The 1st Battalion of Maharaja Holkar's Army is serving with H. M. Forces overseas.

Consequent upon the despatch of Holkar's Transport and 1st Battalion for service with H.M.'s Forces, the Maharani's Own Guards, a Cavalry Unit, was converted into a full Infantry Unit. A recruiting

campaign was launched and the following Units were organised :— (1) a training centre for Holkar's Transport, (2) a training Company, 432 strong, for reinforcements to 1st Battalion overseas, as also a reserve of 42 Officers, the selected candidates being trained at the I.S.F. and O.T.S. Schools. In addition the following units and personnel were supplied to the Govt. of India :—(1) a section of M. T. Drivers, (2) a Garrison Company 165 strong, (3) 10 signallers, with 100 per cent reinforcements per annum. And a number of other facilities were provided, *e.g.*, accommodation, etc., to the Malwa Garrison Co. The State also undertook to train and supply M. T. reinforcement for 1st Battalion overseas. Three centres were opened for training recruits, under the Technical Training Scheme, and already 903 trained recruits for war service have been supplied from the State.

His Highness' Govt. are committed to incur an additional expenditure amounting annually to over Rs. 27 lakhs as a result of the war on the Army, Police, Civil Defence & A.R.P., etc., and over Rs. 15 lakhs on account of dearness allowance granted to State servants getting upto Rs. 100 p.m. in the districts and Rs. 120 p.m. in the City and War Allowance to all Government servants getting upto Rs. 700 p.m. A sum of Rs. 280 lakhs has also been provided under " Debt Heads " for Grain Operations and other controlled commodities.

With a view to encouraging recruitment for War Services, H. H. had ordered that 50 per cent of the vacancies should be reserved for those who had rendered approved war service. And the fullest co-operation was offered to the Govt. of India in a number of other matters connected with the war.

The scheme regarding the conferment of emergency commissions was given due publicity and a number of candidates were recommended. Similarly, applications for other kinds of War Services were forwarded both from the State servants and the public. Special steps were taken to effect recruitment to the Medical Services for the war, important concessions being announced in favour of those in the State Medical Service or in private practice who offered themselves for War Services. Candidates from the State were also recommended under the Bevin Training Scheme

The Holkar State War Front was set up, its work being carried out by the Holkar State War Front Council, and its Propaganda and Publicity Sub-committee. A fully equipped cine-van was made available for visual propaganda in the interior of the State. An organisation was set up to carry on an intensive drive in connection with the small savings scheme, within the State.

Liberal concessions in land revenue were made to give impetus to the ' Grow More Food ' campaign. In order to deal with the food problem, Indore was the first in India to introduce successful rationing by the coupon system. The arrangements earned praise from all quarters, including the Economic Advisers to the Central and United Provinces Governments, both of whom visited Indore to study the working of the scheme and expressed their complete satisfaction. The scheme featured in a B.B.C. Broadcast as well. All the textile mills in the State were engaged in executing very substantial orders of the War Supply Department. H. H.'s Government had introduced their own system of

(Indore—*contd.*)

supplying standard cloth to the poor population of the State, but eventually joined the All-India Standard Cloth Scheme.

H. H. with his characteristic zeal for measures calculated to further the successful prosecution of war, convened a unique conference at Indore, of all the Patels (headmen) of the State, with a view to bringing home to the headman of each village the responsibility resting on his shoulders for the defence of his village, intensification of the 'Grow More Food' campaign and the building up of the morale of the people. H. H also welcomed the idea of holding the First All India War Front Rally at the capital of his State, which was held in 1943 and proved a great success. The Sixth War Services Exhibition was inaugurated by H. H. the Maharaja on the 23rd Oct. 1943, and attracted big crowds. It cost H. H.'s Government about Rs. 43,000.

H. H. also paid a visit to Persia and Iraq to see troops from his State serving in that command. Under H.H.'s Commands, a vigorous campaign was inaugurated to secure the maximum number of recruits from all parts of the State. Prominent features of the scheme were the grant of land, rewards in cash and kind to serve as an incentive for enlistment

H. E. the C.-in-C has sanctioned the organisation and composition of the Soldiers' Boards in the State. Fullest co-operation had been shown in stimulating the recruitment of Indian women for the W.A.C., particularly for the Naval Wing.

The Indore Crop Control Order has been issued to meet the urgent necessity of replacing the production of unwanted crops by foodcrops, as a means of increasing the production of food grain in the State.

Liberal contributions in money and kind were made from the State, in addition to the initial contribution of Rs. 5,00,000. The following are some of the important items :—

The Ruling family, of high class Marathas, claims descent from Satvajirao Chavan, Patil of Daflapur, to whom a Deshmukhi Watan was granted by Ali Adilshah, King of Bijapur, in 1670. The Jahagirs of Jath and Karajagi Paraganas were conferred upon him by King Adilshah of Bijapur in the year 1680.

The Raja Saheb was educated for some time in the Deccan College but was suddenly called back owing to the serious illness of his father, the late lamented Shrimant Ramrao Amritrao alias Abasaheb Dafle. The Ruler exercises full Civil and Criminal powers over his State. During the short period of his rule he has evinced keen interest in the welfare of his subjects by introducing various reforms such as an independent High Court, a Local Board, etc.

In 1932, he visited England to attend the Third Round Table Conference at the invitation of the Secretary of State for India. He is an all round sportsman and a good cricketer, and takes keen interest in Scouting.

The Rajasaheb is a Lieutenant in the Royal Indian Navy and rendered active war service during 1940 and 1944.

War Services: On the outbreak of the War, H. H. placed at the disposal of His Imperial Majesty the entire resources of his State. The State made very liberal contributions in men, money and kind for the effective prosecution of the war. 160 men from the State forces were sent on active service and in recognition of their services, their families were granted an annual allowance of Rs. 10,000. An aeroplane, a steam launch, a motor boat, a steam roller, 61 meter gauge railwagons for use overseas, a few locomotives in the pooling scheme, a supply from the railway workshop of 30,000 spanners, 7 sets of Link's overall instruments for planes, 5,000 chairs, 100,000 Helves pick-axes, 70 boxes of lamp transports, etc., were placed at the disposal of H. E. the Viceroy. The State enrolled 1,300 recruits, the largest number in Kathiawar, of combatants, non-combatants and technicians; and liberal facilities were given to State servants joining the Defence Services.

Contributions: Rs. 35 lakhs invested in various War Loans; Rs. 5 lakhs to H. E. the Viceroy's War Purposes Fund; Rs. 5 lakhs for mobile canteens on the Burma Front; Rs. 2,07,000 for three Spitfires named "Lady Linlithgow", "Dilawar" and another; Rs. 14½ lakhs to many other war funds.

The Veraval Harbour was closed for most part of the War years thus involving an annual sacrifice of Rs. 20 lakhs. The reduction of assessment for the grow-more-food campaign entailed an appreciable loss in land revenue. 12,000 Tons of millets were exported at cheaper rates at the request of the Supply Dept. and the entire exportable surplus of the ghee produced in the State was placed at their disposal.

The emergency measures included a full-fledged Directorate of Civil Supplies, A.R.P., Coastal War-watching, N.W.F., civic guards, free housing and financial aid to evacuees, gifts of comforts for Troops and a radio Station at Veraval Observatory, etc.

The Silver Jubilee of H. H.'s rule was celebrated with great eclat on 31st March 1945 when a large number of concessions and donations were granted to the subjects. A voluntary contribution of Rs. 6 lakhs was raised by the State subjects to commemorate the occasion.

A High Court of Judicature legally constituted on the British Indian model was established at Junagadh on 14th March 1946, with a Chief Justice and two Puisne Judges.

The Maharao of Kutch is the head of the Jadeja Clan, a branch of the old Samma Rajputs who were overlords of Sind some 600 years ago. The Jadejas gradually passed into Kutch, and scions of the clan took possession of various tracts. Early in the 16th century, Maharao Khengarji I became the first Ruler and Rao of the whole country. Bhuj was established as the capital of Kutch in 1549. For the last 125 years there has been a succession of four great Rulers—Desalji II, Pragmalji II, Khengarji III and now Maharao Vijayarajji—all in close friendship and co-operation with the Government of India.

His Highness in his earlier days was a great sportsman—his chief sports being cricket, football, tennis, shikar and sculling. He is very fond of both botany and bird life. He has widely travelled in Europe and parts of India, and has a large number of close friends in Britain and in India.

His Highness is putting into practice his schemes for the betterment of his subjects in all directions and for the development of the State's possibilities, notably in irrigation.

In spite of 9 consecutive years of deficient rains, His Highness contributed munificently to the war effort and worked in cordial co-operation with the Government of India for the safety and welfare of India. He was a member of the National Defence Council.

MAYURBHANJ: FLIGHT-LIEUTENANT MAHARAJA SIR PRATAP CHANDRA BHANJ DEO, G.C.I.E., Maharaja of Mayurbhanj.

Born: February 18, 1901.

Succeeded: April 23, 1928.

The Maharaja is a member of the Chamber of Princes in his own right and Pro-Chancellor of the Utkal University.

Educated: At Mayo College, Ajmer, and Muir Central College, Allahabad.

Married: On the 25th November 1925, a daughter of Maharajkumar Sirdar Singhji of Shahpura, Rajputana.

Heir-Apparent: TIKAIT PRADEEP CHANDRA BHANJ DEO.

Area: 4,243 sq. miles. *Population:* 990,977. *Revenue:* Rs. 40,59,000.

Mayurbhanj ranks first in point of population among the States of the E. S. Agency.

The capital is Baripada, a progressive Municipal town which provides modern amenities. Baripada and the southern parts of the State are served by the Mayurbhanj Railway which takes off at Rupsa, a junction station on the Calcutta-Madras line of the B. N. Rly. The northern portion is, likewise, served by a broad gauge section of the B. N. Rly. which connects with Tatanagar on the Calcutta-Bombay line.

The Ruling family is the head of the Bhanja Vansi Kshatriyas of Orissa and claims to belong to the solar line. The emblem of the State is a peacock and the State crest is a peacock on either side of a shield which bears the device of a trident, a bull, a crescent moon and a lotus in full bloom. The geographical and strategic position of the State constituted it an important buffer State at the time when the East India Company and the Mahrattas were engaged in a struggle for supremacy in Eastern India and Mayurbhanj supported the British cause. During the Mutiny of 1857, the Ruler of Mayurbhanj again distinguished himself as a loyal ally of the East India Company.

The administrative machinery is modelled generally on British Indian lines—Judicial independence being secured for it under a full-powered High Court. The State is rich in mineral and forest resources, iron ore mining undertaken by Tatas forming the principal industry. The State has recently embarked on a policy of rapid and progressive industrialisation and factories for vanadium, glass, textiles, potteries, plastics and plastic products, chemicals and

pharmaceuticals have been set up. Cottage Industries also receive their due share of importance. There is an Industrial School and the Mayurbhanj Tussar Textiles and Cottage Industry products receive appreciation of people both in India and abroad. The systematic Geological and Botanical surveys conducted with a view to improving the potential resources of the State have yielded valuable results and large deposits of vanadium-bearing magnetite, glass sand and kaolin have been discovered. There are 3 major irrigation schemes working at present and new projects are being undertaken yearly to provide facilities for water supply both for irrigational and drinking purposes. The State has opened an Agriculture Department, established granaries and passed several legislative measures besides making liberal annual grants of loans. Free medical relief is being given by a fully equipped hospital at the Capital with several branch dispensaries spread all over the State. Primary education is also given free, adult education forming an important item of the Rural Reconstruction programme. Scholarships are granted liberally and an increased expansion of educational institutions has given a great impetus to the spread of literacy. The State is rich in antiquities. The recent discovery of palæolithic sites and other archæological finds testify to its ancient civilization and culture.

The State has always believed in the close association of the people with its Government as is evident from the constitution of the Mayurbhanj State Council inaugurated on the 1st August 1892. To give continuity to the policy, the present Maharaja has constituted five Prajasabhas, four in the four sub-divisions and one for the capital of the State. These representative institutions consist of a majority of elected members and have full and free right of interpellation in the House. The Prajasabhas are advisory bodies and were set up in 1930 purely at the initiative of the State to enable the former to formulate local opinion in all matters concerning the well-being of the people in general and to serve as mediums of communication of such opinion to the State authorities. The Prajasabhas have now been made electoral colleges for a Central Assembly known as Mayurbhanj Kendra Parishad, the first session of which was held on January 11, 1940. The Assembly is presided over by Major B. P. Pande, Dewan, and consists of 27 members; of these not more than 15 can be nominated members, of whom not more than 10 can be officials. The Parishad has the power to make laws for the State and to discuss the budget.

Mayurbhanj is proud of an unbroken record of services to H. M. the King Emperor and the Empire. During the world war No. I Mayurbhanj contributed Rs. 30,80,700 and Rs. 1,19,217 as war loans and donations respectively. During the world war No. II the Maharaja placed his personal services and resources of the State at the disposal of His Majesty and contributed 3 first-rate aircraft costing approximately Rs. 2.6 lakhs. PARTABGARH: His Highness Maharawat Sir Ram Singhji Bahadur, K.C.S.I. of Partabgarh.

Born: In 1908.

Succeeded to the Gadi: In 1929.

Dynastic Salute: 15 Guns.

Partabgarh State, also called "Kanthal" was founded in the 16th century by a descendant of Rana Mokal of Mewar.

The town of Partabgarh was founded in 1698 by Maharawat Partabsingh, the ancient Capital being Deolia among the Hills. During the time of Maharawat Sawant Singh (1775-1844), "Kanthal" was invaded by the Marathas, but the Maharawat arranged to buy off the Holkar by agreeing to pay Rs. 72,700 *Salam Shahi*, which was being coined in Partabgarh and was accepted as legal tender throughout the surrounding territories, in place of Rs. 15,000 formerly paid to Delhi. The first connection of the State with the British Government was formed in 1804. The earlier Treaty having been cancelled by Lord Cornwallis, a fresh Treaty was entered into in 1818. Holkar, by the Treaty of Mandsore, ceded to the British Government "all claims of tribute and revenue of every description, which he had or might have had upon the Rajput Princes," according to which Partabgarh paid the stipulated Rs. 72,700 *Salam Shahi* (converted later to Rs. 36,350 British Coin) to the British Government. As this amount was found to be excessive, it has been reduced to Rs. 27,500 from the year 1937-38.

Partabgarh enjoys the high *izzat* of being one of the Treaty States in India and possesses plenary jurisdiction. The highest administrative and executive office is termed "Mahakma Khas", presided over by the Ruler and the Dewan of the State. There is a duly graded judiciary under a separate High Court Judge, who is unconnected with the Executive. *Revenue*: Rs. 9,80,000. *Population*: 91,967.

PATDI : DARBAR SHRI PRATAZSINHJI NARANSINHJI SAHEB, Ruler of Patdi State.

Born : 2nd June 1895.

Succeeded to the Gadi on 17th Dec. 1941, on the death of his father the late Darbar Shri Naransinhji Saheb. On the occasion of his installation, he donated Rs. 10,000 to Surajmalji English School, Rs. 1,000 to the Patdi Kadwa Patidar Education Society and also carried out his father's promise to found a Maternity Home at Patdi, where it was greatly needed. Rs. 2,500 were donated for giving clothes and grains to the poor. A very spacious and fine building for the Vernacular School was opened by him.

He takes keen interest in Agriculture, Horticulture, cattle breeding and irrigation. The experimental farm put up by him at Patdi and distribution of improved seeds to cultivators are some of the acts showing his intense desire to improve cultivation. To increase watersupply for irrigation purposes, he is thinking of Artesian Wells and digging or deepening tanks wherever possible to provide against vagaries of monsoon. He has made a valuable collection of animals and the Patdi Stud is now justly and widely famous. His fine selection of animals will be evident from the fact that out of 14 animals sent at the Bhavnagar Cattle Show, 13 won prizes and certificates. The Mare Carefree has been famous at the Bombay Races. His animals have also won in Ireland.

Patdi, the capital has one Anglo-Vernacular School, two Vernacular Schools (Gujarati & Urdu) and two Girls' Schools. In the villages 7 Vernacular schools are maintained by the Local Board and 8 by the State. There are no taxes or Veth (forced labour) in the State. The State supplies free electric street lighting, medicine, and bore pipe water. The State encourages education by Scholarships, grant of school fees and books to poor students. In times of scarcity the State makes liberal advances of Taccavi and free distribution of grains, clothes, etc., and also opens relief centres. A cotton Textile Mill is under project.

Most of the famous Kharaghoda Salt Works, formerly known as the Patdi Mitha Agar belong to this State but are now held by the Govt of India on lease.

The State enjoys jurisdiction as under :—Criminal 3 years R. I. and fine upto Rs. 5,000. Civil upto Rs. 10,000 *Area :* 165 square miles. *Population :* 20,346.

Married : The daughter of His late Highness the Maharajadhiraj of Patiala, in 1932.

History : Maharaja Ramai Deo, a direct descendant of Prithwi Raj Chauhan, the last Hindu Emperor of India, founded the Patna State about 1159 A.D. The Rulers of Patna have enjoyed the hereditary title of 'Maharaja' from the very beginning. Patna State is identical with the ancient "Dakshina Koshala", the Kingdom of Kusha, the 2nd son of Rama. It's various architectural ruins bear testimony to its ancient culture and civilization. The State was taken under British protection in 1803 and ever since, it has remained extremely loyal to the British Govt. A well-governed and progressive State, its valuable resources are spent on works of public utility. It possesses very good educational and industrial institutions including the Rajendra Intermediate College. Subject to certain exemptions, primary education is compulsory for all boys and girls between the ages of 6 and 11. It has, a fully equipped Hospital and an X-ray and Electrotherapy Institute at the capital, with several outlying dispensaries and two child Welfare Centres, telephone and telegraph connections in the important places and a Municipal Cttee. at the capital, as also in Kantabanji, a growing trading centre in the Titilagarh Sub-Division. There are also 770 Panchayats and 3 Praja Sabhas. A Leg. Assembly of 28 members with an equal number of elected and nominated members, with the Chief Minister as ex-officio President, was inaugurated in October 1945. The Maharaja is a Member of the Chamber of Princes in his own right. He is a Patron of the All-India Cattle Show Society and a Vice-Patron of the E. S. A. Branch of the Indian Red Cross Society. PATIALA: HON. LIEUT. GENERAL HIS HIGHNESS FARZAND-I-KHAS DAULAT-I-INGLISHIA, MANSUR-UL-ZAMAN, AMIR-UL-UMRA MAHARAJADHIRAJ RAJ RAJESHWAR SHRI MAHARAJA-I-RAJGAN SHRI SIR YADAVENDRA SINGHJI, G.B.E., G.C.I.E., LL.D., YADU VANSHAVATANS BHATTI KUL BHUSHAN, *born* January 7, 1913, succeeded to the Gaddi March 23, 1938.

Patiala is the premier State of the Punjab and the fact that about half of its population professes the religion of its Sikh Ruler lends it an added importance. The Sikhs traditionally look up to the Rulers of Patiala for guidance and the advancement of their cultural and material interest. Indeed, in all important issues that have determined the course of Sikh history, the voice of Patiala has for many decades, played a very prominent part.

Notwithstanding the strains and stresses of the long drawnout World War II, His Highness has introduced several measures of radical and momentous reforms. Separation of the Executive from the Judiciary, re-organisation of the Judicial Deptt. and the constitution of the Judicial Committee of the Ijlas-i-Khas to hear appeals against the decisions of the High Court, the abolition of unpopular escheat laws, the creation of an Industries Deptt., the addition of a Maternity Ward to the Lady Dufferin Hospital at a cost of Rs. 75,000, the opening of the Bahadargarh fruit farm, substantial increases in the salaries of all gazetted officers, ministerial staff, inferior servants and the personnel of the Patiala State Forces and introduction of an elective system in the Municipalities and Small Town Committees, are some of the achievements of the recent anxious years of his rule. A T. B. Hospital with accommodation for 70 beds and 15 model cottages is under construction. A number of factories have been started. The Cement Works at Surajpur, the Biscuit Factory and the Starch Factory at Rajpura are among the biggest factories of their kind in India, which are being run on up-to-date lines. The State is rich in antiquities and possesses valuable forests. Its mineral resources, though yet largely unexploited, are believed to be not inconsiderable. 139 miles of broad-gauge Railway line have been constructed by the State at its own expense. Three colleges, including one for girls, and 10 High Schools are being run by the State. Primary and female education is free throughout the State. His Highness has recently appointed a Constitution Committee to frame a constitution for the establishment of a Legislative body and has also issued orders for the reconstitution of the

Civil Services mostly on a competitive basis so that the determining factor in appointments would be pure merit.

The State's proud record of service during the second as in the first World War is unsurpassed. The 1st Rajindra Sikhs, the 2nd Yadavendra Infantry, the 1st Rajindra Lancers and the 56 M.T. Company remained on active service and the entire cost was throughout borne by the State. The pre-war budget of the Army which used to be Rs. 15 lakhs rose to Rs. 45 lakhs per annum. The State has also provided 65,000 recruits for the Indian Army and State subjects have invested a sum of Rs. 7 lakhs in interest-free Bonds and have contributed more than Rs. 8 lakhs to the Viceroy's War Purposes Fund. His Highness's personal contribution to War funds and other charitable institutions connected with the war amount to Rs. 4 lakhs. During the war His Highness visited several theatres of war in India and abroad. Three State subjects have won Victoria Crosses in World War II.

The idea of forming a Khalsa Defence League with a view to giving an impetus to recruitment amongst Sikhs and furthering the Empire's war effort originated with His Highness and he sponsored it and actively promoted its welfare by an initial donation of Rs. 51,000 followed by a regular monthly contribution of Rs. 1,000. The League has provided more than two lakhs of Sikh recruits for the Indian Army.

Now that the war is over, the State, under the benign and wise leadership of its soldier-Ruler, is pursuing the problems of peace with the same whole-hearted vigour as marked its all-out war effort. A number of schemes for ameliorating the lot of the demobilised soldier and ensuring for him decent living conditions have been sanctioned. A certain percentage of posts falling vacant have been reserved for ex-servicemen. His Highness has also sanctioned comprehensive Post War Development and Reconstruction plans which aim at substantial economic, social and educational uplift of the people on sound lines. The interests of demobilised soldiers have been duly safeguarded in them. Several industrial projects, which were held up for want of necessary plants and machinery, will be started at no distant date and care has been taken to see that the common man is really benefited by them. In all these administrative reforms and beneficent and constructive plans of the State, His Highness is ably assisted by his Prime Minister, Sardar Hardit Singh Malik, C.I.E., O.B.E., I.C.S., a far-seeing statesman of progressive views.

A son and heir to His Highness was born on 11th March, 1942.

Area : 5,932 sq. miles.

War Efforts: Soon after the outbreak of the War the State offered a donation of Rs. 1,00,000 every year till the end of the war. Donations of varying amounts totalling Rs. 6,30,000 were accordingly given to the following Funds during the six years of the War, *viz.*, H. E. the Viceroy's War Purposes Fund, St. Dunstan's Section for Blinded Soldiers, Sailors and Airmen of the Empire, Lady Linlithgow's Silver Trinket Fund, King George's Fund for Sailors, Indian Comforts Fund for Indian Troops & Seamen in Europe, Indian Red Cross & St. John Ambulance Assen. (Indian Council) Fund, London Air Raid Relief Fund, Indian Comforts Fund for the comforts of Indian Troops in the Middle East, R. A. F. Benevolent Fund, Polish Children Fund, etc. The Porbandar Darbar have invested approximately Rs. 30,00,000 in various War Loans. H. E. the Viceroy presented to His Highness, Gold and Silver Shields for record sales of National Saving Certificates in 1944-45. The best A. R. P. Organisation, a National War Front, War Watching and Civil Defence Organisation, contributions to the various Funds both by the State and people, industries both established and new on War Orders list, etc., went a great way towards the State's War effort.

Special Constitution: His Highness had been pleased to introduce in 1944 a new constitution. Under the constitution a Raj Sabha (Legislative Assembly) composed of 30 members of whom 24 are elected, has been set up. Even of the remaining 6 members to be

nominated by His Highness, 4 are non-officials. The Raj Sabha elects, as provided in the Constitution a panel of 4 nominees two of whom are appointed by His Highness as Ministers. All the administrative portfolios including Revenue, Finance and Police are placed in charge of the two Ministers. Only the Civil Service and the Foreign and Political are reserved to the Chief Minister. The Raj Sabha is competent to pass, for the Ruler's assent, enactments in respect of all the matters falling under the portfolios of the two Ministers, and to make interpellations, move Resolutions and regulate Financial Administration. 14 Raj Mantris and Raj Shubhechhaks constitute two orders of advisers on matters relating to civic and rural questions of public welfare. The Village Panchayat Act made applicable to all the unalienated villages, ensures simple, speedy and inexpensive justice.

MAHARAJ KUMAR SHREE UDAYBHAN, Heir-Apparent, Porbandar State, Kathiawar.

Area : 397 sq. miles. *Population :* 71,473 (1941). *Net Revenue* Rs. 21,76,000 (1945-46).

Phaltan is practically a full-powered State with powers of life and death over its subject. Its origin dates from 1284 and is ruled, from that time to this day, by the same House of Naik Nimbalkars. It was related by a number of matrimonial alliances to the House of Bhonsles to which Shivaji the Great, the Founder of the Maratha Empire, belonged.

Shrimant Rajasaheb is an enlightened Ruler and takes keen interest in the administration. The State is governed by a Constitution Act of 1942. The Council of Ministers under that Act consists of the Dewan and two Ministers chosen by the Ruler from among the two-third elected element in the Legislative Council, the two Ministers being entrusted with almost all the departments concerning the internal administration of the State. Thus the new Constitution has practically conferred full responsible government on the people of the State.

War Effort : Since the beginning of the war the State Government has been contributing Rs.1,000 per month to H. E. the Viceroy's War Purposes Fund. It has also subscribed Rs. 8 lakhs to the Defence Bonds, of which Rs. 2 lakhs are subscribed to interest-free Bonds and Rs. 11,000 for an Armoured Carrier bearing the name 'Phaltan.' Besides, all soldiers enlisted from the Phaltan State are given a monthly allowance of Rs. 2 over and above their pay. Compensation is also paid to such soldiers and their heirs in case of disablement or death while on active war service.

Rairakhol is a State in the Eastern States Agency. The Ruling family claims descent from the famous Kadam Bansi Rathor Rajput who acquired fame in regard to mediæval Rajput Chivalry. Historical records prove that they came over from Ceylon and established the Kingdom of Bonai and Rairakhol. The Rajas of Rairakhol from very ancient times assumed the title of 'Jenamani' meaning Jewel of the human race. The emblem of the State is Kadamba Sankha Padma (Anthosaphalous Cadamba, Conch shell and Lotus). During the dark days of the sepoy mutiny of 1857 Raja Bishnu Chandra Deo Jenamani of Rairakhol distinguished himself as a loyal ally of the British Govt. by rendering valuable assistance to the British Officers and troops at Sambalpur, in recognition of which the State was raised to the status of a Feudatory State under a special Sanad as 'Meharban Dost and Priyatam Bandhu'. The State, in spite of its limited resources gave sincere aid and co-operation in the last War efforts.

Important Features : The State possesses Cornelian and Agate mines. The famous cup of Ptolemy is reputed to have come from the mines at Limbodra in the Rajpipla State.

The soil is fertile and produces cotton, oil-seeds, tobacco, etc., in addition to the usual food-grains. The principal crop is cotton which is wholly of the 1027 A.L.F. long staple variety. Sowing of inferior cotton is prohibited by law. Rajpipla cotton has established a very good reputation in the Bombay and other markets and is sought after by the trade. The State also possesses very rich forests.

Principal reforms introduced by His Highness the present Maharaja : 1. Making all services pensionable. 2. Extension of the Survey Settlement System to every village in the State. 3. Free Primary Education and grants of liberal scholarships for secondary and higher education. 4. Liberal endowments for the benefit of widows and the destitute. 5. Encouragement to Trade and Industry. Introduction of the 1027 A.L.F. Variety of cotton throughout the State and development of Pressing and Ginning Industries. 6. Extension of Railways. 7. Establishment of Taluka and District Local Boards. 8. Introduction and organisation of State Forces. 9. Establishment of the Legislative Council. 10. Introduction of beneficent measures for relief of agricultural indebtedness. 11. Establishment of a High Court of Judicature in the State, thereby completely separating the Judiciary from the Executive in the State. 12. Establishment of Taluka Advisory Boards consisting of non-official members.

WAR CONTRIBUTIONS.

On the outbreak of the War His Highness placed his personal services and resources of the State at the disposal of His Majesty. Rewa is the largest and the easternmost State in the Central India Agency. The State is bounded on the North by the Banda, Allahabad and Mirzapur Districts of the U.P., on the East by the Mirzapur District and the Feudatory State of Chhota-Nagpur, on the South by the Central Provinces and on the West by the States of Maihar, Nagod, Sohawal and Kothi. The State has a number of 'Waterfalls' some of which, Chachai and Keoti, are famous for their height and grandeur. The State is very rich in mineral resources.

The general administration of His Highness' Government is conducted by a State Council of which His Highness himself is the President. The State Council consists of four Ministers and a Prime Minister who is also the Vice-President. The Judicial administration is independent of the executive and accordingly a High Court consisting of the Chief Justice and two Puisne judges, has been constituted. His Highness is, however, assisted by a Judicial Adviser, who is a retired and renowned judge of the Allahabad High Court, to advise him in disposing of appeals and revisions filed against the orders of the High Court.

SACHIN: HIS HIGHNESS MUBARIZ - UD - DAULAH, MUZZAFFER - UL - MULK, NUSRTA-E-JUNG, NAWAB BAHADUR SIDI MOHOMMED HAIDER MOHOMMED YAKUT KHAN, NAWAB OF SACHIN.

Educated : At home and later at the Rajkumar College, Rajkot.

Sachin is the Senior Habshi State in India. The Rulers of Sachin are Sunni Mohommedans, and are the lineal descendants of Nawab Bahadur Sidi Abdul Karim Mohommed Yakut Khan I. Over a family dispute for the Throne of Janjira, Sidi Abdul Karim Mohommed Yakut Khan I left Janjira and joined forces with the Peshwa. In 1791 a triple treaty was concluded between Sidi Abdul Karim Mohommed Yakut Khan I, the Peshwa, and the East India Company, on the basis of an offensive and a defensive alliance. By this Triple Alliance Sidi Abdul Karim Mohommed Yakut Khan I took the State of Sachin. The Ruler of Sachin is a Member of the Narendra Mandal (Chamber of Princes) in his own right and is internally fully sovereign. The State pays no tribute either to the British Government or to any other State.

Sachin : The Capital of the State and a pretty town on the B. B. & C. I. Railway.

Dumas : The summer capital of the Ruler is a delightful sea resort, ten miles by motor road from Surat. It is the only summer resort of its kind on the Western coast connected with Grand Trunk Telephone and other modern conveniences. *Amusements in Dumas :* Sea bathing, promenade, tennis, cricket, motoring, etc.

Married: A daughter of H. H. the Maharawatji Sahib of Partapgarh in 1909 and after her demise, a daughter of the Rawatji Sahib of Meja (Mewar).
Heir-Apparent: Maharaj Kumar Digvijaya Singhji, M.A., born on the 15th October 1918.

His Highness is a descendant of the Rathor Rajput clan of the Jodhpur House and is the twelfth Ruler of Sailana, a mediatized independent State in C.I. The Judicial Powers are plenary. The Rajputs of the surrounding non-Rajput States consider His Highness as their head and Rajputs of India in general consider His Highness as one of the foremost leaders and a distinguished member of the community. His Highness has held various offices in the All-India Kshatriya Mahasabha ever since he joined it in 1919, till 1933, when he ceased to take an active part for reasons of health. He is still a member and his advice and guidance are always eagerly sought. The Head Office of the Mahasabha remained at Sailana for 10 years, between 1919-1933, when His Highness held the office of General Secretary. His Highness is a patron of the Mahasabha and has presided over its annual sessions 6 times, is President of Kurukshetra Restoration Society, Thaneshwar, and Council of Bharat Dharma Mahamandal, Benares; Member, General Council of the Mayo College, Ajmer; Daly College, Indore; and Princes' Chamber, Delhi.

During His Highness's reign the local Vernacular School was raised to a High School and a new school building and a Boarding House were constructed. Education and medical aid are free throughout the State. A new Hospital has been built with facilities for indoor patients and an up-to-date Maternity Ward. The Raja Saheb has granted a democratic constitution to the local Municipality and established an industrial free Mandi at Dileepnagar and an Agricultural Farm at the Capital. A large Oil Mill, an Oil Factory and a cardboard mill have been recently set up in the State. The Judiciary has been separated from the Executive and a High Court has been established. Lately a Council of State has been established, of which Shreeman Yuveraj Sahib Digvijaya Singhji, M.A., is the President.

At the outbreak of the War in 1939, the Darbar placed its entire resources at the disposal of H. M. the King Emperor and during the period the hostilities continued, liberally contributed to various funds and loans. Rai Sahib A. P. Bhargava, Bar-at-Law, *Foreign and Political Member. HISTORICAL SKETCH.

The Ruler of Sandur has a great and glorious tradition to uphold The House of 'Ghorpade' of which he is a true son—there have been no adoptions in this house—was founded in the Deccan centuries ago by Karnasinh, a Sisodia Rajput whose ancestors had died fighting Alauddin Khilji at Chitor. The enterprising Karnasinh scaled the walls of the otherwise impregnable hill fort of Khelna (Vishalgad today) by means of a rope tied to a monitor lizard, called "Ghorpad" in Marathi and so acquired the title 'Ghorpade' for himself and his descendants. The line of Shivaji the Great was founded by the younger brother of Karnasinh, but the claim of the Ghorpade family to a place in history is independent of this relationship to the founder of the Mahratta Empire.

"The vast region of Southern Maharashtra and Karnatak was long under the sway of the various Ghorpade Families and ruled by them" (Sardesai). The names of Bhyriji, Santaji and Maloji have inspired both terror and pride over this broad tract. Under Bhyriji's grandson, Murar Rao, the celebrated Chief of Gooty, the Ghorpades attained the height of their power. Murar Rao's empire extended as far east as Madras and Pondicherry and he levied a tribute of Rs. 7 lakhs from Mysore and Hyderabad. It was this same Chief of Gooty whose help Clive solicited during the siege of Arcot, and who routed Chanda Saheb, turning the scales and history itself in favour of the British. In 1818, during the time of Shiva Rao, the State first came into political relations with the British, and its unfettered internal

sovereignty was recognised. The State pays no tribute to the Crown and the Ruler has absolute powers.

ADMINISTRATIVE SYSTEM AND REFORMS.

Long before 'modern' administrative reforms now urged in Indian States were thought of, the Ruler had instituted such a system of administration in Sandur State; and this has had the advantage of trial and improvement over many years of peace and six war years. The Ruler is the fountain-head of all authority. The administration is carried on by elected representatives of the people and by official councils. Under the new Sandur State Constitution Act proclaimed on 21st April 1946, the fundamental rights, liberties and duties of the citizen have been classified and absolute equality of all State subjects and franchise on the basis of universal adult suffrage reiterated.

LEGISLATURE.

A State Council was established in 1931, known as 'Prajamandal', consisting of 25 members, of whom 21 are elected. The "Prajamandal" has the right to initiate legislation, move resolutions and ask questions. The second Chamber of the State Legislature was constituted in 1939, with powers to legislate and vote upon the Budget. A Standing Committee was then constituted, elected by both Houses of the Legislature, further to associate the people in the administration of their own interests, and all matters of public interest such as Village Panchayats and Rural Uplift, Education, Public Health and the levy of new taxes are referred to this Committee.

EXECUTIVE.

The policy now enunciated of 'Government by Executive Council' was long forestalled by the State. The Ruler constituted an Executive Council, known as Huzur Darbar, in 1931. This was reorganised in 1937 and further strengthened, and the procedure adopted was regularised by the issue of the Mantri Mandal Manual in 1942. A Constitution Manual was issued in 1943 and this lays down the entire administrative system of the State. Provision has been made recently by the Ruler on his 38th birthday, for a popular elected Minister in the State Executive Council.

JUDICIARY.

Sandur is perhaps the pioneer among States of her size to constitute an independent Chief Court presided over by a Nyayadish of unimpeachable integrity. This court is competent to refer cases to the Federal Court. The Judiciary has been separated from the executive.

The Ruler is present at the Secretariat every Tuesday to hear the grievances of his subjects and no one is denied access to him on that day.

A Debt Conciliation Board was constituted in 1936 to relieve agricultural indebtedness. By the Temple Entry Proclamation of 1932 the ban on Harijans worshipping at temples was lifted.

EDUCATION.

The State established a central educational institution, known as Shri Chatrapathi Shivaji Vidyamandir in 1942. Students are coached up to the Matriculation standard and special stress is laid on pre-military

Sandur—*contd.*

education, extra-curricular activities and a study of "Dharmashastra." A Technical Training Centre has been established at Ramgad in collaboration with the Government of India and it is proposed to use this centre, after the war, for imparting technical training to demobilised Mahratta Soldiers and others.

MINERAL RESOURCES.

Sandur holds extensive and excellent deposits of important economic minerals, particularly iron and manganese. Mr. Bruce-Foote of the Geological Survey of India has observed that "Sandur is one of the richest iron yielding centres in the whole world." Recent geological reports have revealed the Sandur iron ores to be high grade, with over sixty per cent iron metal. Eminent geologists have testified to the high percentage of pyrolusite in Sandur manganese ores, which have obtained first grade unit prices in Continental markets. There are also extensive deposits of red and yellow iron oxides, which on analysis are found to be highly suitable for the manufacture of paints which satisfy I.S.D. specifications. Enormous quantities of high grade jasper, most useful for the manufacture of mosaic tiles, are available. Kaolin of exceptionally good quality, and suitable for application in the paper industry, or for high quality porcelain and refractory manufacture is also found. Sandur forests abound in sandalwood with a rich oil content.

RULER'S ACTIVITIES.

The Ruler accompanied by Shrimant Rani Saheb Maharaj visited Europe in 1935, and Australia in 1939. The Ruler presided over the Akhila Karnatak Literary Conference at Bellary in 1938, when he stressed the need for a common script for India. He also presided over the Inter-Group Sports Tournaments of the University of Bombay in December 1940. In Feb. 1941, he unveiled the statue of Tanaji Malusre at Sinhgad. The Ruler is the President of the All-India Maratha Educational Conference and a Member of the Chamber of Princes, representing Phaltan, Aundh, Surgana and Sandur. Since the commencement of the war, the Ruler had been taking active personal interest in war efforts both within and outside the State. He was a Member of the Mahratta Officers' Recruiting Committee constituted by His Excellency the Governor of Bombay and his appeal to the Marathas to join the Army in large numbers, was widely responded to. A Technical Training Centre to train war technicians was started at Ramgad Hill Station largely by the Ruler's efforts.

SANT: MAHARANA SHRI SIR JORAWARSINHJI, K.C.I.E., the present Ruler of Sant State. Born on 24th March 1881. Installed on the Gadi in 1896. Formally invested with full powers on 10th May 1902.

Educated at the Rajkumar College, Rajkot, and was associated with the administration of the State for more than a year preparatory to his being invested with full powers.

He is an intelligent Prince who keenly supervises the administration of the State. During his regime many improvements have been made and the State is making good progress: The revenue of the State increased—Its lands have been surveyed and regular settlement introduced—Provision for English education made for the first time and Primary and Secondary education made free throughout the State—Election system sanctioned for Municipality—Free medical relief extended by opening new dispensaries in the district. Many other improvements have been introduced during his regime such as founding of a permanent Famine Relief Fund and granting of liberal tagavi loans to the agriculturists during the time of scarcity. Money is also advanced to local merchants by way of encouragement at a low rate of interest. Other improvements of utility such as installation of electricity in the towns of Sant and Rampur, clock tower, public gardens, metalled roads in parts, have also been made. The regime of Maharana Shri Sir Jorawarsinhji has been anything but a bed of roses. Famine and lean years had made the financial condition of the State far from satisfactory; but wise management has been instrumental to keeping its head up.

The Rajaji Saheb exercises full powers and enjoys a dynastic salute of 9 guns Primogeniture is the rule of succession to the Gadi and the Darbar's right of adoption has been recognised and confirmed by Government.

By order of His Majesty's Secretary of State for India approving the recommendations of His Excellency the Crown Representative, the Kadana State was absorbed into Sant State and the administration thereof was taken over by Sant State from 22nd April 1943.

During the Great War the services of the Rajaji Saheb were appreciated by Government. The Government were also pleased to recognise the right of the Rajaji Saheb to be a member of the Chamber of Princes.

On the outbreak of the World War II the Rajaji Saheb sent a message of unswerving loyalty to the Crown and the Government. He also contributed generously towards various War Funds totalling in all upto 31st Dec. 1945 to Rs. 2,04,161. A sum of Rs. 1,00,000 was invested in 3% Defence Loan 1949-52. A sum of Rs. 25,000 was donated by the Maharana Saheb towards H.E. the Viceroy's War Purposes Fund for purchase of Ambulance Cars out of which seven Ambulance Cars have been purchased and named "Santrampur." A sum of Rs. 75,000 was also invested in the 3 Years Interest Free Defence Loan. This has been converted into 3% Victory Defence Loan of 1957. A State War Committee for collection of War Funds and propaganda work was formed.

The Ruling Family in the Sant State belongs to the Puar or Parmar caste of Rajputs and is believed to have descended from the celebrated family of Vikramaditya and Raja Bhoj of Ujjain. They first came from Dhar and settled at Jhalod and finally about the 13th Century at Sant. The founder of the family was Rana Sant who with his uncle Limdev was forced to leave Jhalod and established himself at Sant.

The Sant State has been in direct political relation with the Government of India since 1st April 1933.

The supervision and management of the Vaccination Department of the State has been transferred to the State from 1st December 1933, by Government and the Chief Medical Officer of the State has been appointed as the head of the department.

Unrestricted control and management of the State schools was transferred to the State by Government from 1st May 1933.

Area: 527½ sq. miles. *Population:* 114,047. *Revenue:* Rs. 10,06,962.

SAWANTWADI: His Highness Raja Bahadur Shrimant Sivram Sawant Bhonsale, Raja of Sawantwadi. The Ruler being a minor, the administration is carried on by Her Highness the Regent Parwatidevi Ranisaheb, assisted by an Advisory Council consisting of the Diwan, Naib Diwan and the Sar Nyayadhish.

Area : About 930 sq. miles. *Population :* 2,52,170 (1941 census). *Gross average revenue :* Rs. 10,34,597, the principal sources being Land Revenue, Forest and Abkari.

Sawantwadi, is one of the ancient Maratha States in Western India, is a compact territory unbroken by the lands of other States or Districts and is bounded on the north by Malvan sub-division of the Ratnagiri District and separated by the line of the Sahyadri hills, on the north-east from Kolhapur territory, and from the east and south-east from the British District of Belgaum. To the south lie the Dicholi and Pedna sub-division of the Portuguese territory of Goa. The general aspect of the country is strikingly picturesque. The ratio of literacy to the total population is 17.3 as compared to 7 % in the last census.

The State pays no tribute to the British Government. It is rich in forests of teak especially near the Sahyadri hills. The principal fruits are mangoes, plantains, citrons, limes and jack fruit. Cocoanuts and cashew-nuts are plentiful. The staple agricultural produce in the State is rice, but the quantity being insufficient for the needs of the people, a good deal is imported from outside. Iron-ore of fair quality is found in the neighbourhood of Ramghat in the Sahyadri range. The Akeri stone, a slate coloured taleschist, extremely hard, compact and heavy, is unrivalled for building purposes. Mica mining is under contemplation. Bidi-making is developing on a large scale. Sodium Silicate factory at Math in the State is progressing well.

The principal industries in the State consist of gold and silver embroidery work on both leather and cloth, fans, baskets and boxes of kas-kas, brass ornamented with gold thread and beetle wings, lacquered toys, playing cards and elegant drawing-room ornaments carved from the horn of the buffalo and bison.

SAWANTWADI: HER HIGHNESS PARWATIDEVI BHONSLE, Regent Ranisaheb of Sawantwadi.

Born : in 1907. She is the grand-daughter of His late Highness Sayajirao Gaekwad of Baroda.

Education : Received a thorough, all-round education in Baroda and subsequently at the Bently Privory Girls' School in Middlesex, England.

Married : Major His Highness Sir Khem Sawant V, the late Rajasaheb of Sawantwadi in 1922. His late Highness, unfortunately died of an accident in 1937. The Crown Representative then invested her with full ruling powers and appointed her the Regent of the State, a responsibility which she shouldered undaunted and with a firm determination to follow explicitly in the footsteps of her husband.

Ever since Her Highness was appointed Regent, the State has shown considerable progress in all branches. She has especially taken great interest in medical relief, and in the rural development of the State. Her Highness' period of Regency has been, however, a very critical period as it saw the beginning and the end of World War II, but undaunted,—she showed such an ability, tact, and courage to retain the efficiency of the State Administration, that she has won the appreciation of all.

The valley is very rich in natural sceneries and is 3,500 ft. above sea-level. The side valleys rise very high and are very pretty.

The State maintains a standing army of 12,000 strong including a small Cavalry of 100 horses. There are eighty forts throughout the State to maintain order among its people.

The Ruler had to overcome many difficulties in the making up of the State. To begin with, the tribes had been accustomed for centuries to absolute independence and no rule. It was only through patience, high statesmanship and untiring efforts of the present Ruler that Swat State came into existence.

He is very modern in his ideas. There is an elaborate telephone system throughout the State. Buner, Chamla, Khudokhel, Kana, Ghorband, Chakesar, Indus, Kohistan, Kandhiya are all included in the State. The Ruler is very keen on communications, roads, bridges and buildings. There is a well-equipped Hospital and a High School, a Veterinary Hospital, a Zenana Hospital in Saida-sharif. Besides, there is a big hospital in Buner and ten primary schools in different places. The Ruler has introduced many internal social and economical reforms.

The valley is famous for pheasants, chikor and duck. *Recreations:* studies, shooting, motoring, hill climbing. Recently he has taken to religious learnings and spends most of his time in devotions, religious studies and discussions.

Heir-Apparent: Shahzada M. A. H. Jahanzeb Wahahd C.I.E. (1946), formally recognised by the Government as such in 1933. He has been greatly assisting his father in all matters of State administration. Is in charge of the Army and is also the Executive head of the State.

TRAVANCORE: HON. MAJ.-GENL. HIS HIGHNESS SRI PADMANABHA DASA VANCHI PALA SIR BALA RAMA VARMA KULASEKHARA KIRITAPATI MANNEY SULTAN MAHARAJA RAJA RAMARAJA BAHADUR SHAMSHER JANG, G.C.S.I., G.C.I.E., D.LITT., Maharaja of Travancore.

Born: November 7, 1912. *Ascended* the Musnad on Sept. 1, 1924. Invested with Ruling Powers on Nov. 6, 1931.

Educated: Privately. Has travelled extensively in India, Europe, Ceylon and the Dutch East Indies. The Andhra and the Annamalai Universities have conferred the honorary degree of D.Litt. on H. H. the Maharaja and H. H. the Maharani, mother of H. H. the Maharaja. The Benares Univ. has conferred the hon. degree of D.Litt. on H. H. the Maharani.

His Highness is Colonel-in-Chief of the Travancore State Forces, Hon. Maj. Genl. of the 12th Malabar Bat. and Hon. Maj.-Genl. of the British Army. He is the founder and Chancellor of the Travancore Univ.

Although the Ruler is legally the source of all authority, judicial, administrative and legislative, yet for more than a century the Maharajas have acted as constitutional monarchs, without, however, failing to maintain effective personal contact with the administration of the State. H.H. the present Maharaja has not only sedulously adhered to these great traditions of his House, but has readily responded to all the legitimate aspirations of his subjects. The Legislature reconstituted in 1932 into a Bicameral Body, with an Upper House, the Sri Chitra State Council and a Lower House, the Sri Mulam Assembly, became thoroughly representative of all classes, communities and interests, with a decisive and predominantly elected non-official majority. Wide powers, budgetary and legislative, and powers of interpellation were conferred on those bodies in relation to all matters excepting those affecting the Ruling Family and the Paramount Power.

A Communique issued on the 16th January 1946 announced His Highness' intention to promulgate a Proclamation inaugurating further large-scale measures involving among other features, the adoption of universal adult suffrage. Both the Houses of the Bicameral Legislature will be constituted entirely of elected members, the Lower House on the basis of territorial constituencies and universal adult suffrage for men and women, and the Upper House representative of various professions, avocations and interests. Both the Houses will elect their own Presidents and Deputy Presidents and will be co-equal in status and functions. The business of the House will be conducted through sub-committees which will have extensive control over administration.

The Executive Administration of the State will be conducted by the Dewan, whose position *vis-a-vis* the Legislature and the Judiciary will be approximated to that of the President of the United States, subject always to the rights, privileges and prerogatives of the Sovereign.

Among notable legislative measures recently introduced are the Debt Relief Act, which is designed to alleviate the burden of indebtedness and is wider in scope and application than similar enactments elsewhere, and the Trivandrum City Municipal Act, which makes provision for the better management of the municipal affairs of the City through a Corporation.

H. H. Maharani Setu Parvati Bayi, Mother of His Highness.

In November 1936, His Highness promulgated the epoch-making Proclamation throwing open all the temples under his control and the control of his Government to all classes of Hindus including those hitherto regarded as untouchables, a reform which evoked universal satisfaction and thankfulness all over the world. Another humanitarian reform was achieved by His Highness's Proclamation in November 1944, abolishing the death penalty provided for certain offences under the Travancore Penal Code.

With a view to nationalising transport in the State, His Highness's Government have taken under their control nearly the whole of the road transport system in the State. They have also a scheme for nationalising the water traffic on the chain of canals and lagoons which lie from end to end of the State. The Travancore Steam Navigation Company has been started for the development of coastal traffic. Government have established the Travancore Credit Bank for granting long term loans to the agriculturists and small industrialists of the State. To reduce unemployment and to exploit the immense natural resources of the State, they have embarked upon a programme of industrialisation.

The establishment of the Pallivasal Hydro-Electrical Works, which provides cheap power for industrial purposes, is the starting point of a series of industrial concerns undertaken by the Government. The Ceramic Factory established at Kundara manufactures porcelain ware, comprising sanitary equipments, drainage pipes, electrical goods, crockery and fancy articles. The Travancore Sugars and Chemicals Ltd. is incorporated in Travancore and manufacturing, besides sugar, 260 varieties of pharmaceutical products, such as liniments, liquid extracts, liquors, pulves, spirits, syrups and specialities including Caffeinaspirin and Lysol. Among the articles manufactured in the Rubber Factory at Trivandrum are cycle tyres and tubes, motor

(*Travancore*—contd.)

car tubes, surgical tubing, sheets, electric standards, dipped goods, hoses, gharry tyres, etc. The Aluminium Smelting Factory at Alwaye, which has commenced production of Aluminium, has great possibilities for the future. The Glass Factory at Alwaye and the Plywood Factory at Punalur have started work. The Travancore Fertilisers and Chemicals have been started with a capital of five crores of rupees.

The construction of a Chemicals and Fertiliser Factory at Alwaye for the manufacture of Ammonium Sulphate and other important chemicals has been taken in hand. Arrangements are being made for establishing a cane-sugar factory in Central Travancore and a Rayons Factory in North Travancore. Schemes are well under way for establishing factories for the manufacture of cement, cane-sugar, caustic soda, fertilizers, sulphuric acid, potassium chlorate, ammonium sulphate, acetic acid and calcium carbide. Measures are also in progress for the establishment of spinning Mills.

Refined salt is being produced on a commercial scale and the State is now able to export salt after meeting all its requirements.

The State stands in the forefront of educated India. According to the latest census, the percentage of literacy on total population is 47.1 for the whole State, 58.1 for males and 36.0 for females; and the percentage of literacy on the population aged 5 years and over is 55.0 for the whole State, 67.9 for males and 42.1 for females. By a Proclamation in 1939, a University designed specially to promote technological studies and research has been established. A scheme of universal and compulsory primary education on the basis of a ten-year plan has been initiated.

On the outbreak of the war, His Highness the Maharaja generously offered to place the entire resources of the State at the disposal of the British Government. He not only made munificent contributions to the war fund but sent the First and Second Infantry Units of the State Forces on Active Service. He contributed Rs. 0,50,000 for equipping the trawler and mine sweeper "H.M.I.S. Travancore" for the use of the Royal Indian Navy and Rs. 1,50,000 for the purchase of two fighter planes for the Royal Air Force. Besides, His Highness contributed Rs. 15,80,350 to H.E. the Viceroy's War Fund, Rs. 2,00,000 to H.E. the Viceroy's Comforts Fund, Rs. 1,10,000 for Red Cross Work, Rs. 1,50,000 for Women's war work, Rs. 30,000 to King George's Fund for Sailors, Rs. 15,000 to H.E. the Governor's War Fund, Rs. 60,000 to the St. Dunstan's Fund and Rs. 1,000 to General De Gaulle's Funds for amenities to the French Prisoners of War. Her Highness Maharani Setu Parvati Bayi contributed Rs. 1,00,000 to H.E. the Viceroy's War Fund apart from contributions towards equipping a Field Ambulance Unit and to other funds. The total contributions of the State including those from the public up to December

31, 1945 amounts to Rs. 35,12,589-7-9 (public 4,61,539-7-9). Further His Highness sent about 90,000 men to the Assam Labour Force who built the road to China over which the Allied armies marched to victory.

His Highness's benefactions include large sums of money for earthquake relief, for fight against tuberculosis and similar purposes and annual donations to several philanthropic and scientific bodies. Among his other charitable works is the establishment of a home for the destitute and the infirm, and a school for the deaf, dumb and blind. The Vanchi Poor Fund has been started under the patronage of His Highness for feeding the poor and providing food and clothing to poor School going children. He has founded an Art Gallery at the capital in addition to the one, he maintains in the Palace.

His Highness's hobbies are tennis, photography, riding and motoring.

Travancore is one of the most populous and important of Indian States, next only to Hyderabad and Mysore in population and revenue, and occupies the south-west corner of the Indian Peninsula. It is foremost among the Indian States and the Provinces in respect of literacy, both among men and women. Bounded on the North by Cochin State and Coimbatore District, on the East by the Districts of Madura, Ramnad and Tinnevelly and on the South and West by the Indian Ocean and the Arabian Sea, it is one of the most picturesque portions of India, with an extensive hill region, numerous rivers, and a succession of back-waters and vast and rich forests. Trivandrum, the capital of Travancore, is a terminus of the South Indian Railway. The whole State is covered by a network of roads and canals with a well regulated system of road and water transport.

Born: on 22nd February, 1884.

His Highness received an all round education and administrative training. As Heir-Apparent his exceptional abilities fitted him admirably to discharge powers that were delegated to him by his illustrious father, His late Highness Maharana Sir Fatch Singhji Bahadur, G.C.S.I., G.C.I.E., G.C.V.O., during his lifetime. On succeeding to the *gadi* in 1930 His Highness carried with the administrative schemes he had already begun as Maharajkumar. His Highness's qualities as a progressive ruler have manifested themselves in the various educational, medical and municipal reforms introduced. Improved administration and industrial developments have led to an increase in the annual revenue of the State which is now almost double of what it was when His Highness took over the reins of administration. His Highness contributed liberally to the various war activities and funds and a vigorous war effort was launched in the State.

His Highness is an excellent shot, big game shooting being his chief recreation.

The Darbar Saheb married A. S. Kunvarbaisaheb in 1922 and has two sons and three daughters. The rule of primogeniture governs succession. The Heir-Apparent, Kumar Shri Krishnakumar Saheb, is aged 15 and the younger Kumar Saheb Virawala is aged 12. Both of them are receiving educational training in a public high school at Rajkot. The Heir-Apparent is studying in Matriculation class while the second Kumar is in standard III.

The Darbar Saheb has earned the reputation of being a progressive and benevolent ruler and takes personal and keen interest in the administration of the State. Reforms of far-reaching importance—medical, social, economic, educational and political—have been inaugurated by him. The subjects of the State enjoy the benefits of free education, free medical relief, Child Marriage Restriction Act, the Farmers' Relief Act, a State Bank, Prohibition, Electric Power-House, and a Public Municipality in Vadia and Akala.

The growth of industrial concerns is adding to the prosperity of the State. An oil mill, a ginning factory, rice hullers, pulse hullers and Industrial works are among important industrial concerns.

The Darbar Saheb has contributed liberally towards different War Purposes Funds.

Namdar Darbar Saheb had been elected a Representative Member of the Chamber of Princes for the Western Kathiawar States comprised in Group II and was twice elected a member of the Standing Committee of the Chamber of Princes.

The State was doing its best to promote the war efforts and had A. R. P. and National War Front organisations.

The Local Dharasabha was introduced in the State last year.

INDIAN NOBLES

AND

PROMINENT PERSONAGES

1947

ANGRE: MAJOR SHRIMANT SARDAR DHARMAVEER CHANDROJI SAMBHAJI RAO, VAZARAT MOAB, SAWAI SARKHEL BAHADUR, the foremost and premier nobleman and Jagirdar of Gwalior State and a scion of the illustrious Naval House of Angrias of the Mahratta Empire fame.

Born : In 1896 at Gwalior.

Educ. : At the Wilson High Sch., Bombay; Sardar Sch., Gwalior, and the Agricultural Institute, Allahabad.

His services to the State have been in the capacity of Keeper of His Highness' Privy Purse, Suba of Shivpuri, Master of Ceremonies, Private Secretary to H H. the Maharaja Scindia, Huzur Secretary, Foreign and Political Minister and Vice-President, Executive Council, Gwalior Govt.

Estate : He holds the Jagir of Neori-Bhonrasa and Panbihar in the Gwalior State. *Area :* 248 sq. miles. *Population :* 38,466.

Family History : The historic house of the Angrias has placed an ineffaceable seal on the pages of the Mahratta Empire since the days of Shivaji the Great. Kanhoji Angre was the naval commander of the Mahratta Empire. The Angrias fleet, the pioneer of the Indian Navy, struck terror deep into the hearts of all aggressors. During the regime of the Peshwas, the Angrias accompanied the illustrious Mahadji Scindia to Gwalior. Since then the family has been closely connected with the Ruling House of Scindia in all their conquests in North India, and in recognition of the many services rendered by the Angrias in the conquest of Mewar, Ujjain and Mandsaur, the Maharaja Scindia endowed them with the Jagirs of Neori-Bhonrasa and Panbihar.

Sardar Angre, like his ancestors, has rendered valuable services to the Scindia dynasty and the Gwalior State and to him the State owes many outstanding reforms in the fields of administration and legislation. He has brought forward many public utility schemes leading to the amelioration of the public at large during his tenure of office as Foreign & Political Minister and later as Vice-President of the Gwalior State Executive Council. His wife is the aunt of the present Ruler, Lt.-Genl. His Highness Maharaja Sir Jivaji Rao Scindia.

In recognition of his services, he has been awarded the Scindia Medal, the highest honour in the State. His activities within and outside Gwalior in fields, Political, Social, Literary and Educational, are widely known. He has organized his Jagir on progressive lines in keeping with the times by instituting such departments as Development, Revenue, Judicial and Police.

He has 3*s.* and 1*d.* His 1st son, Sambhaji Rao Angria, is studying Law. His 2nd son, Shivaji Rao Angria, is receiving higher education.

Permanent Address : Sambhaji Vilas, Lashkar, Gwalior.

Minister-in-charge of Reforms, 1941-44; services lent to Alwar State as Senior Minister, 1944-45.

Member, Agra University Court, 1930-36; Founder Member, Hindu University Court since 1918; Life Member, International Law Association (London); President, All-India Educational Conference, New Delhi, 1934; Leader, Indian Delegation to the World Conference of Education at Oxford, 1935; Member, All-India Public Schools Committee.

Has travelled extensively in Europe and the Near and Middle East; is interested in languages, both Eastern and Western, and has specialised in Constitutional Law. Was for some time Vice-Chairman, Servants of India Insurance Company.

Is cosmopolitan in social matters, and has for a long time been helping Harijans and other depressed classes by arranging facilities for their education, water-supply, temple entry, etc., and by engaging them in his own household service. A liberal in Politics, but owing to his connection with the administration of States with conservative traditions, his political leanings could not find their desired outlet, except in a very small measure as President of the Jodhpur State Representative Assembly, where he was very popular with the progressive elements.

Social services in connection with education, medical relief, etc., were started in his estate several decades ago. In a famous shrine dedicated to Shri Krishna's Avatar in his estate, which is visited by thousands of pilgrims every year there is no let or hindrance to the entry of Harijans at all. First to inaugurate a jointly elected and non-communal municipality in the districts of Marwar, in his estate town of Pokaran. During the period of scarcity of foodstuffs he has provided citizens with grain at specially reduced rates at his own expense. On his U. P. estate he has treated his tenants with great liberality: the rents have been uniformly kept low and the number of ejectments has been extremely small and confined to cases where there could be no reasonable alternative owing to the death or desertion of tenants or any similar mishap.

Eldest son, K. Bhawani Singh, B.A. Hons. (Cantab.), Bar-at-law, a Judge of the Jodhpur State, was educated at Trinity Hall Cambridge, where second son, K. Address : The Fort, Pokaran, and Pokaran House, Jodhpur.

DALMIA, SETH RAMKRISHNA, runs a chain of Cement Factories, a Paper Mill, many Sugar factories which rank among the largest of their kind in India, Electric Companies, Chemical Works, a Plywood factory, a number of collieries, large Agricultural farms, a public Railway carrying passengers and goods, the Bharat Insurance Co., Bharat Fire & General Insurance Ltd., Bharat Bank Ltd., and many other concerns. Despite these and other notable enterprises his private life is one of rigorous simplicity and he gives away most of his income in charities.

His ancestors, for [illegible] aristocrats of the Marwari community, originally belonged to Dalma, a village in the Punjab States, from where they derived the family name Dalmia. From Punjab, his ancestors migrated to Jaipur State, and to Seth Harjimal, a scion of the Dalmia family, were born two sons, Ramkrishna and Jaidayal. Seth R. Dalmia has one son and four daughters. The eldest daughter, Shrimati Rama Devi, a highly educated and cultured lady, is married to Seth Shanti Prasad Jain, also a leading industrialist and business magnate. Seth Jai Dayal and Seth Shanti Prasad are his loyal and closest business associates who have quietly organised the Dalmia Jain group of Industries.

Seth R. Dalmia's great grandfather, who was one of the wealthiest men of his time, stripped himself of all earthly possessions and voluntarily adopted the life of a poor man, just to have a foretaste of the joys of poverty, which are ever denied to the wealthy. Ramkrishna began life at the early age of 12, being apprenticed to a firm on Rs. a month, and made a mark when he was in his teens. His schooling was desultory, but by assiduous home study, he mastered the essential principles of economics and finance. Throughout his stormy career which was full of numerous ups and downs, he has pre-eminently been a "Karmayogi", and his steadfastness and strong will-power have raised him to his present position. Besides his mastery of technicalities of finance and economics, he has also acquired a good knowledge of English, Hindi, Bengali and Gujerati, all of which he speaks well and with ease. He is well read in Hindu scriptures and his knowledge of Indian philosophy is extensive.

His industrial career commenced only fourteen years ago, and today he is one of the biggest industrial magnates in the country. Always keeping in view the best interests of the country, he forged ahead and planned industrial enterprises, which have ultimately proved of immense public benefit and utility. Not many years ago, his centres of activity

were scattered in small isolated places. To-day they have grown into self-sufficient towns, aptly named after his ancestors, Dalmianagar (Bihar), Dalmiapuram (South India), Dalmia Dadri (Punjab), and Shantinagar (Karachi-Sind) the last bearing the name of his illustrious son-in-law. These are the perfect " model-towns " well planned, with clean filtered water and electricity laid on. Large parks, picturesque lawns, green playgrounds and wide cement roads surrounding well ventilated modern factories, present a colourful spectacle.

The growth of Dalmia Cement industry, which he entered in 1937, admirably illustrates his organising capacity and perseverance. The keen competition put up by his rivals, lasted for years, but his untiring energy, patience and courage wore its edge off and the industry was set on a sound and prosperous footing.

At the end of 1942 he floated the Bharat Bank Ltd., with an authorised capital of Rs. 20 crores and an issued capital of Rs. 15 crores. The avowed aim of this enterprise is to render service to the masses of India, ultimately to help in spreading industry to every nook and corner of the country and to make crores of men and women " bank-minded " by thousands of branches operating in every city and town of India.

He also floated the Bharat Collieries Ltd. comprising three of the best Collieries in Bengal and Bihar and purchased the well known Motor Car Co. Allen Berry & Co. Ltd. Besides, he recently acquired Govan Bros. Ltd., comprising managing agencies of The Indian National Airways Ltd., The Delhi Flour Mill Ltd. The Dhrangadhra Chemical Works Ltd., Raza Sugar Co. Ltd., Bulund Sugar Ltd., Rampur Maize Products Ltd., Rampur Engineering Co. Ltd., Rampur Distillery Ltd. Has acquired control of two cotton Mills and a woollen Mill in Bombay, viz., The Sir Shapurji Broacha Mills Ltd., The Madhowji Dharamsi Manufacturing Co. Ltd., and The Indian Woollen Mills, and also the National Journals Ltd., Delhi. He has also taken over the controlling interest in Bennett, Coleman & Co. Ltd., Proprietors of *The Times of India*, Bombay. Has recently floated Dalmia Jain Airways Ltd. with an issued and paid-up capital of Rs. 3½ crores.

Seth Dalmia lives plainly, wears simple clothes and confines his personal expenses to the barest necessities of life. He keeps himself abreast of latest developments in world politics, trade and industry and devotes hours daily to the study of religion and philosophy. His connections are widespread and he is on terms of close friendship with eminent political leaders, commercial magnates, ruling princes, provincial governors, executive councilors and high officials.

Dalmianagar is the seat of the manufacture of diverse articles of public utility such as Cement, Sugar, Paper, Vegetable Ghee, Sulphuric Acid, Bleaching Powder, Caustic Soda, Table Salt, Distempers, Filter Paper, Playing Cards, etc. Seth Dalmia takes greater pride in the facilities Dalmianagar provides to the workers than in the magnitude of the industries it houses. He takes keen personal interest in the welfare of his employees for whose recreation special provision has been made. There are clubs, libraries, gymnasiums, playgrounds, orchestras, theatricals, study-circles and schools, which are the best of their kind in any industrial colony.

Educated: At the Hindu School and Presidency College, Calcutta, has also had military training. Commissioned to the Indian Land Forces, January 1924, attached to 11/19th Hyderabad Regt., I.T.F. as Hon. Lieut., now Hon. Captain.

The Maharaja Saheb was for several years the Chairman of both the District Board and the Municipality of Dinajpur. He was elected a member of the Bengal Legislative Council, 1930, and nominated a member of the Council of State, 1933. His speeches are always marked by their freedom from fear or favour. He was President of the All-India Kayastha Conference representing five million Kayasthas, and a Vice-President of the British Indian Association. His voluntary monthly contribution of Rs. 100 to the War Fund since the commencement of the war and other substantial lump payments to Govt. have been greatly appreciated.

Raja Ganesh, the founder of the Dinajpur Raj, defeated the Mussalman ruler of Bengal and occupied the *musnad* in the beginning of the 15th century. The Raj descended in 1042 from the Dutta family of Ganesh to Raja Sukdev Ray, a scion of the Ghosh family. Sukdev's son Prannath was given the title of Maharaja Bahadur by Emperor Aurangzeb. His grandson Ramnath obtained it as a hereditary distinction in 1745. He owned numerous muskets and many pieces of cannon, some of which are still preserved with care. His grandson Maharaja Bahadur Radhanath's sanad was given under the hand and seal of the first British Governor-General of Bengal. Shyammohini, the talented widow of Maharaja Taraknath, received the title of Maharani, and her son Maharaja Bahadur Sir Girija Nath Ray, K.C.I.E., left the *gadi* in 1919 to his son, the present Maharaja.

The great temple of Kantanagar on the Dinajpur-Darjeeling Road—which Dr. Buchanan visited between 1807 and 1814 and declared as "by far the finest in Bengal,"—was built by the Maharaja Bahadurs Prannath and Ramnath Ray. Maharaja Jagadish Nath is a devoted Vaishnab and his financial contributions to the many religious, cultural and charitable institutions of the country are too numerous to mention.

HARKISONDASS LUKHMIDASS, J.P., Proprietor, Messrs. Harkisondass Lukhmidass, Share & Stock Brokers; Director, The Native Share & Stock Brokers' Assn., The Shree Nivas Cotton Mills Ltd., The Gwalior Paint & Chemical Industries Ltd. & The Bhopal Sugar Industries Ltd.

He set up the firm in 1932 by becoming a member of the Bombay Stock Exchange and within less than a decade earned a name for himself both on Stock Exchange and among the commercial community. He combines in himself those personal qualities which bring success in business as well as affection of those with whom he comes in contact. His personal charm and magnetism easily win for him the trust and confidence of those he meets and his absolute devotion to duty and sound business instinct strengthen the relationship so formed.

Harkisondass was born in Bombay on 31st October 1904. He was educated at the Bharda New High School and then joined his father's firm of Freight Brokers, well-known in freight line as Messrs. Aspinwall Lukhmidass & Company. Soon after, he was taken as a partner. He joined the freight business, at the early age of 18 and his association with his father's business which continued for ten years, enabled him to come in contact with many businessmen as well as shipping and export houses. Due to diversion of export trade from Bombay to other Indian ports and to general world depression, he turned his attention to the Stock Exchange in 1932. The training he had under his father combined with his own abilities helped him to bring the firm to its present position.

The firm of Messrs. Harkisondass Lukhmidass is today among the front-line firms on the Bombay Stock Exchange. It has set before itself the aim of specialising in genuine investment business for which a Stock Exchange primarily exists. For promotion of such business, correct information should be supplied to the investing public and Harkisondass has made a point of developing a statistical department which publishes from time to time wall-charts as well as special Surveys of industries.

Harkisondass has displayed a broad progressive outlook in business activities and in other walks of life as is evident from the financial assistance he has given privately to many institutions and individuals. ***Address :*** 17, Carmichael Road, Bombay.

Area of the Estate: About 346 sq. miles. *Revenue:* About Rs. 1,20,000. *Headquarters:* Bhattuvaripalli.

Kangundi is one of the ancient estates of Southern India, founded as far back as 1066 by one Kammi Naidu, who migrated from Pyapili, a principality of the Vijayanagar Empire. The present Raja is a direct descendant of the founder and the 28th representative in the line of succession.

An educated man with an enterprising spirit, the Raja has introduced several reforms in the estate and is keenly interested in cattle breeding and allied subjects. Has won the appreciation of the Agricultural Commission as a practical cattle breeder. Hon. Visitor, Agricultural College and Research Institute, Coimbatore, for a long period. Has endowed large properties for the upkeep of many temples in his estate. During the last war he contributed Rs. 1,200 per year towards a hospital ship. In recognition of his meritorious services to his estate, Government conferred upon him the title of Rajah in 1930 as a personal distinction.

The people of his estate celebrated the Silver Jubilee of his accession to power with great rejoicings at his headquarters and other places between the 10th and 14th Dec., 1943.

KOTWARA: RAJA SYED SAJID HUSSAIN ZAIDI, M.A. (Edin.), M.L.A., Raja Saheb of Kotwara Raj, U.P.

Born : 1910.

Educated : La Martiniere College and Edinburgh University.

Married : 1937, Princess Selma, Sultan, grand-daughter of H. I. M. the Caliph, Sultan Murad V (died 1942).

1942, Daughter of Nawab Mohamad Hasan Khan of Moradabad.

History : Kotwara Raj was established by Rajas Gopal Singh and Saroop Singh about 200 B.C. Deobunder and Anhalwara Patan (of Somnath fame and a centre of world trade) also remained capitals. This family once ruled India from Cambay to China. In 1488 Raja Mull embraced Islam. In 1680 Raja Baz Khan lost the kingdom to Aurangzebe, but some of the lands were restored to Raja Tarbiat Khan in 1779. The male line of the 84th Raja Madar Buksh Khan (1827-57) became extinct. His daughter was married to Syed Nazar Hussain, a Prince of Yaman. Their son was the grandfather of the present Raja. Widely travelled, the present Raja is essentially liberal in his outlook. He is the founder of the Hindustani League which advocates the use of modified Roman Script as the only practical solution of suicidal Urdu-Hindi Controversy. He is a great believer in sound films as a medium of instruction—particularly in earlier stages.

KUREISHY: RAFIUSHAN IFTIKHARUL MULK, KHAN BAHADUR, LT.-COL., HAJI MAQBOOL HASSAN, M.A., LL.B., Ex-Home Minister, Bahawalpur Govt.; belongs to a respectable family of the Kureish of Arabia. Though hailing originally from the Meerut District, his ancestors had long settled in the State. *Born* at Bahawalpur in 1900. He received his early education in the State, and, later on, joined the Muslim University, Aligarh, where he passed his M.A., LL.B. in 1925. From his childhood he exhibited traits which gave promise of his future eminence.

His personality made itself felt in the sphere of his employment, where he won the golden opinions of his colleagues as well as the ruler under whom he served. He began his career in 1925, when he joined the personal staff of His Highness the Nawab Ruler Bahadur of Bahawalpur as an Aide-de-Camp. But, it did not take long for the Ruler to discover that the young incumbent had in him the makings of a capable administrator. Accordingly, in 1927, less than two years from the date of his appointment, he was promoted to the rank of Assistant Military Secretary. But this was only a stepping-stone. In January 1930 he was given the combined office of Private and Military Secretary, with the additional charge of the portfolios of Education and Municipalities, and was subsequently raised to the status of Minister-in-Waiting. In 1932 he paid a visit to England and other Western countries with His Highness a visit which he repeated in 1935 and in 1936. The beautiful volume in which he has chronicled the impressions of his first itinerary is an eloquent testimony to his great powers of observation and expression. He has also been to the Near East and performed the holy pilgrimage. His services to the State were recently recognised by the Government by the grant of the title of Khan Bahadur, which is the first distinction of its kind to be conferred upon a purely Riyasti Vizier in the State. He is also the recipient of many decorations and distinctions from the State, and is His Highness's representative in the Senate of the Punjab University.

During the 18 years of his incumbency he has been in charge of several departments, and in each he has left the impress of his personality in the shape of many useful administrative reforms which he introduced from time to time. It is due mainly to his efforts that the Chief Court of Bahawalpur has been raised to the status of a High Court. He is a very capable and efficient administrator, having won the highest praise of both the ruler and the ruled by his politeness, impartiality and sympathy for the people of the State. He is very popular with all classes of His Highness's subjects. Resigned State service, Dec. 1945. Has now settled in Aligarh.

Subsequently he joined Balliol College, Oxford, 1912-1915 and graduated with Honours in modern History in 1915. Captained the Cricket Team at Eastbourne College and represented Oxford University both at cricket and golf.

After finishing his educational career, proceeded to France in 1916, and served at first with the French Army on the Western Front, then in 1917 and 1918 as a fighting Pilot in the Royal Flying Corps and subsequently in the Royal Air Force in France, Italy and in the Home Defence, United Kingdom ; was wounded in air combat in France in 1917. Later on, he entered the Indian Civil Service and served in the Punjab from 1922-1930, at first as Assistant Commissioner, then after only 18 months' service, as Deputy Commissioner in the following Districts :--Sheikhupura, Gujranwala, Gujrat, Rohtak and Sialkot. He was then appointed Deputy Trade Commissioner in the office of the High Commissioner for India in London and served there from 1931-1933 and for a short period in 1933 in Germany as Indian Trade Commissioner at Hamburg ; returned to India in 1934 and was sent to work as Deputy Secretary in the Commerce Department, Government of India, in which capacity he remained from 1934 to the beginning of 1937 ; served as Joint Secretary in the Commerce Department, Government of India in 1937 and was appointed in 1938 as the first Indian Trade Commissioner to the United States of America and Canada with headquarters at New York and held this position from July 1938 to the end of January 1944. His services were recognised by the grant of O.B.E. (1938) and C.I.E. (1941). He participated in the following International conferences as representative of the Government of India :—

International Cotton Conference, Washington, 1939 ; International Labour Conference, New York, 1941 ; The United Nations Food

Conference, Hot Springs, Virginia, U.S.A., 1943; United Nations Relief and Rehabilitation Conference, Atlantic City, U.S.A., 1943.

In April 1944, the Government of India lent his services as Prime Minister to His Highness the Maharajadhiraj of Patiala.

During the short period that Sardar Hardit Singh Malik has been at the helm of affairs in Patiala State, he brought about many important reforms in the various spheres of administration and has distinguished himself as a statesman of a high order.

In view of his deep knowledge of international affairs and his successful experience as Trade Commissioner for India in the U.S.A., he was chosen to lead the Indian States Industrial delegation in which capacity he visited the United Kingdom and the U.S.A. Under his leadership the Delegation established valuable contacts with the industrial magnates of these countries and also of Canada and opened up a way for the procurement of plants and machinery for the Industrialisation of the States, which is bound before long to start in full swing if the States are to line up with the rest of India.

As a result of his home policy, the economic stability of the State has been ensured and agriculturists have been largely benefited by measures adopted to bring the prices of foodgrains up to the same level as that obtaining in the Punjab.

Appointment of a Civil Services Commission and throwing all Civil Service posts open to entry by competition, enhancement of the pays and grades of all gazetted officers, ministerial staff, inferior servants and armed forces personnel, 20% increase in the rates of dearness allowance and the extension of its scope so as to benefit all State servants drawing a pay up to Rs. 800 and also the pensioners and recipients of stipends and compassionate allowances, the creation of the Directorate of Public Relations in order to ensure more cordial relations between the Ruler and his subjects and to make the Government more responsive to public opinion, the setting up of a Constitution Committee to frame a constitution for a popular representative assembly are some of the reforms which have been inaugurated by his advice and initiative. He also took a keen interest in the formulation of Post-war Development plans and immediately the peace returned, he started working whole-heartedly for their early implementation. Already several of these schemes have been put into effect. Recently he has been selected as one of the members who are representing India on the United Nations' Economic and Social Council, London.

Address : Patiala.

MEHTA, P. N., L.T.M., A.M.S.T., Gold Medalist. One of the most successful of the students of the V. J. T. Institute from which he passed out in 1897 with the highest scholarships for the first two years, and Lord Reay Gold Medal with Honours Diploma. From 1898 to 1905 he worked as a Weaving Master in sole charge of his departments in The New Great Eastern Mills, Ltd., Bombay, the late Mr. Nansukhbhai Bhaghubai's Mills, Ahmedabad, and The Presidency Mills and The Colaba Land & Mill Co., Ltd., at Bombay, when he left for England for further studies in Textile manufacture. Was the first to obtain the Government of India State Technical Scholarship in 1905; proceeded to Manchester and obtained certificates in the Faculty of Technology of the Victoria University and Honours Diploma of the Municipal College of Technology of that City. At the City and Guilds of London Examination he obtained the highest award of the Silver Medal and Money Prize in Carding and Spinning and also first class Honours, and Bronze Medal in dyeing of Cotton Yarn and Piecegoods, and First Class Certificates in various textile manufacturing and designing subjects and in bleaching, dyeing, printing and finishing of Textile fabrics. Returned to India in 1908 when he was appointed Textile Expert to the Government of Bombay to organise and conduct a survey of the hand-loom weaving industry in the Presidency. This was completed in 1909, from which period Mr. Mehta has been acting as technological expert and adviser to different cotton Mills in India; is also interested in the import of English yarns, piecegoods and textile machinery.

Since 1909, devoted his whole-hearted attention in introducing in India the weaving of fine piecegoods with fine yarns imported into India of 40 to 120 counts. Met with

considerable success and his help and assistance have been always sought by Mills in Bombay, Ahmedabad, Rajputana, Bengal and other parts of India.

Besides importing English yarns and piecegoods, Mr. Mehta carried on business as a Cloth Merchant, buying his requirements from local Mills till the end of the trade boom in 1920, when he closed his business as a Cloth Merchant. He has done very useful service to the country by advising and helping to introduce the spinning of fine yarns and the weaving of fine cloth all over India, and his services and advice have always been available and offered free of cost to all his clients, acquaintances and friends. He is at present doing business as : (1) Importer of cotton, spun silk and Art Silk yarns and Piecegoods from England, the Continent of Europe, China and Japan (*trade with enemy and enemy occupied countries now suspended*); (2) Importer of Textile Machinery for the Weaving, Dyeing, Bleaching and Finishing of Cotton Piecegoods; (3) Cloth Selling Agent for Local Mills.

In 1935 he bought the Crescent Mills of the Currimbhoy Group with the help of his friends and converted it into a fine spinning and weaving mill complete with up-to-date Bleaching, Dyeing and Finishing Machines. In 1942 he took up the Managing Agency of the Burhanpur Tapti Mills Ltd., which he is now working successfully on modern lines.

Besides his commercial and manufacturing business he takes great interest in social and public activities, specially for the benefit of the Parsee unemployed. He has made liberal contributions both privately and publicly to help various social and other institutions to relieve distress and to help those who are willing to work and improve their prospects and has donated large sums to Dr. Massina's Hospital. Has built a cheap-rent chawl for the benefit of Parsees, founded a lying-in-hospital at Udwada, and is engaged in promoting employment centres to educate and give employment to the Parsee unemployed.

He has taken over a Parsi Boarding School at Nasik to run it on the most modern lines and the total cost including purchase, renovation and expansion will come to Rs. 6,00,000.

SAIYEDNA, TAHER SAIFUDDIN SAHEB, H. H. SARDAR (Mullaji Saheb), High Pontiff of Dawoodi Bohra Shia Mohommedan Community and First Class Sardar of the Deccan. *Born :* At Surat on 5th Aug. 1885. *Succeeded* : 1915. Silver Jubilee of accession celebrated all over India, 1940.

Is the 51st incumbent of the pontifical office of Dai-l-Mutlaq. Derives his succession from Prophet Mohommed (peace be upon him), through his descendants the Fatemide Caliphs of Egypt. Nearly 900 years back, owing to political upheavals in Egypt, the last Fatemide Caliph Imam Saiyedna Taiyeb retired into seclusion while his Dawat was transferred to Yemen where the Dais ruled as Sultans. From Yemen the 23rd Dai transferred the seat of Dawat to India. In India, the Dais were the recipients of high honour and enjoyed special privileges from the Moghul Emperors, the Peshwas, the Holkars and the Scindias. The East India Co. counted the Saiyednas among the Indian nobility. His Holiness enjoys all the concomitant privileges, including exemption from the operation of the Arms Act and personal appearance in Civil Courts. Has 12 ss. and 8 *ds*. Heir-Apparent, Abil Qaed Johar Mohommed Burhanuddin Saheb is appointed to the Pontificate as 52nd in the line.

He wields supreme command and jurisdiction, civil and religious, over the members of his community, who owe him allegiance and are bound to obey him and abide by his decisions, which are absolute and final. Has established his own secretariat called El-Vazaarat-us-Saifiyah and under its supervision he appoints his deputies, called Amils, in every town where his followers live to maintain constant contact with them. Is a liberal Patron of Education, Arts and Industry and has established Sigha Ilmiyah, *i.e.*, an education dept. to administer the 350 Madressahs, including High Schools with attached hostels. He maintains at Surat an Arabic Coll. the El-Jaameat-us-Saifiyah, where more than 300 students are provided with free boarding and lodging. His Holiness is an eminent Arabic scholar and one of the greatest exponents of Islamic culture and literature. His annual Arabic brochures on religious and philosophical subjects, published during the month of Ramzan, are acknowledged masterpieces of Arabic literature. His charities and benevolence know no bounds. Notable examples of his munificence are the construction of Quibla in Masjid-e-Aqsa at Jerusalem, the preparation of Kiswat, *i.e.*, an artistic carpet of silver brocade for the covering of the inner walls of the Holy Kaaba, at Mecca, the presentation of Gold and Silver Zarih (sepulchres) to the Mausoleas of the Saints of Najaf and Kerbala at Iraq and the erection of Minaret outside the shrine of Moulana Hussain the Martyr of Islam.

SINGHANIA, SIR PADAMPAT, M.L.A. (U.P.), Governing Director, J. K. Industries, Cawnpore, is the eldest son of the late Lala Kamlapat Singhania, the doyen of Indian Industries in U.P. Originally belonging to the province of Marwar, the Singhanias have made Cawnpore their home and the high position now occupied by the United Provinces in the sphere of industry is in a great measure due to their business acumen, integrity and foresight.

Born : January 1905.

Educated privately ; Sir Padampat entered into his father's business in his teens. Soon afterwards, with his father, he undertook an extensive tour of Europe. The knowledge gained during this tour enabled Sir Padampat to harness it for the betterment of Indian industries. It also enhanced his business acumen and he has spared no pains to translate into reality what he learned and saw during his tour.

Ably assisted by his two brothers, Kailashpat Singhania and Lakshmipat Singhania, Sir Padampat was able to raise what was an ordinary industry in the U.P. to a high level in a very short time. J. K. Industries, which today comprise more than forty-two different units including Textiles, Iron and Steel, Plastics, Aluminium, Glass, Food Products, Chemicals, Sugar, Ammunition, Banking and Finance, etc., are the results of Sir Padampat's strenuous efforts towards India's industrialisation.

In 1932, he founded the Merchants' Chamber of U.P. and in 1935 was honoured with the Presidentship of the Federation of Indian Chambers of Commerce and Industry. From 1941 to 1943 he was guiding the activities of the Employers' Association of Northern India.

In recognition of the valuable assistance received by the Government and of his efforts towards promoting the industrial development in India, Government were pleased to confer on him the honour of Knighthood in January 1943 at the young age of 38.

His activities in the sphere of business are large and varied. He is the Chairman of :—

The U.P. Industrial and Financing Corporation Ltd.

The Bank of Jaipur Ltd.

The Hindustan Commercial Bank Ltd., and a number of other companies.

Sir Padampat was Chairman of the Government Power Alcohol Committee.

He is also a member of :

The Central Advisory Board of the Forest Utilisation,

The Indian Central Jute Committee,

The Indian Central Cotton Committee,

The Cotton Textile Panel representing U.P. Textile Mills,

The Board of U.P. Industries, etc., etc.

A noted philanthrophist, Sir Padampat has donated large sums of money to deserving causes such as Primary Schools, propagation of Hindi and to religious, social and educational institutions.

His chief hobby is to construct modern buildings of which "Kamla Tower" (where are housed the Central administration offices of the J. K. Industries), "Kamla Retreat" (the beauty spot of Cawnpore), "Ganga Kutir" (his residence), are examples. His chief recreations are riding, sports and music.

British trade with the East began in the 16th Century as a quest for spices to flavour the insipid diet of the time and as a search for precious stones and metals to add lustre to the court of Queen Elizabeth. Nowadays the Eastern trade comprises a wide variety of imports and exports essential to the stability of our national economy.

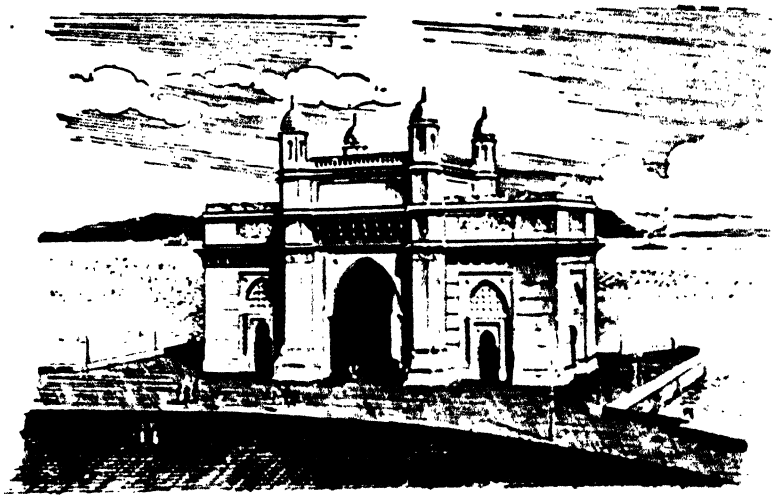
For nearly a century The Chartered Bank of India, Australia and China has provided for traders into the East a skilled and specialised financial service indispensable to the efficient exchange of goods and services.

Manufacturers, Exporters and Importers planning to establish, renew or extend business relations with the East are invited to consult the Managers of the Bank in London and Manchester.

THE CHARTERED BANK OF INDIA, AUSTRALIA AND CHINA

Incorporated by Royal Charter, 1853

Head Office: 38, BISHOPSGATE, LONDON, E.C.2 — *Manchester Branch:* 52, MOSLEY ST., MANCHESTER 2



The Bank's Overseas Branch System extends throughout India, Burma, Ceylon, South-Eastern Asia and the Far East.

GENERATIONS of TRAVELLERS

have enjoyed their first glimpse of India from the deck of a P & O ship. In 1842 they saw it from the 2,000 ton HINDOSTAN, finest vessel of her day. Now 23,000 ton liners will carry you swiftly and comfortably — and tomorrow? Even larger and faster ships will be at your service. The B.I. Company's network of routes throughout the east will ensure connection with other Indian ports and with adjacent countries.
